PATENT ASSIGNMENT

We, Frank Weyer and Troy Javaher (collectively "Assignors") are owners of all rights in and to U.S. Patent No. 7,644,122 issued January 5, 2010 and U.S. Patent No. 9,137,192 issued September 15, 2015 (collectively, the "Patents"). EVERYMD.COM LLC, a California Limited Liability Company ("Assignee") desires to acquire Assignors' rights in and to the Patents.

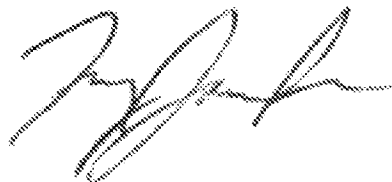

Therefore, for valuable consideration, the receipt of which is acknowledged, Assignors assign to Assignee 100% of Assignors' rights, titles and interests in and to the Patents for the entire terms of the Patents and any reissues, reexamination certificates, or extensions thereof, including the right to sue for past infringement of the Patents. The rights, titles and interests conveyed in this Assignment are to be held and enjoyed by Assignee and Assignee's successors as fully and exclusively as they would have been held and enjoyed by Assignors had this assignment not been made.

Assignors further agree to cooperate with Assignee in the protection of the patent rights assigned hereunder and to perform such other acts as Assignee lawfully may request to maintain or enforce the Patents.

Dated: September 15, 2015
