PATENT ASSIGNMENT

This Patent Assignment ("Assignment") is made and entered into as of September 9, 2015 ("Effective Date"), by and between MICHAEL SEHL, an individual with an address of 2580 Hadley Valley RD NE Rochester, MN (along with his successors-in-interest and/or related parties, Brite Concepts Inc. and Sehl Productions, Inc. d/b/a Brite Concepts, "Assignor"), and LAMI PRODUCTS, INC., a Pennsylvania corporation with an address of 860 Welsh Road, Huntingdon Valley, PA 19006 ("Assignee"). Each of the Assignor and Assignee are herein referred to individually as a "Party" and together as the "Parties."

BACKGROUND

A. Assignee engaged Assignor to perform certain services in connection with the development, sourcing, and manufacturing of certain products, during which engagement Assignor registered and applied to register certain patents in Assignor's name, which Letters patent and applications therefore are set forth in Schedule 1 attached hereto and made a part hereof (collectively, the "Assigned Patents");

B. Assignor is the record owner of all right, title and interest in and to the Assigned Patents;

C. Pursuant to a Supply Agreement between, inter alia, the Parties dated September 9, 2015 ("Supply Agreement"), Assignor assigned, transferred and conveyed all worldwide right, title and interest in, to and under certain intellectual property, including; and

D. The Parties desire to memorialize Assignee's ownership of the Assigned Patents and formally record such ownership with the United States Patent and Trademark Office and any other public records for which recording is deemed appropriate by Assignee.

TERMS

1. **Assignment.** For good and valuable consideration, including consideration stated in the Supply Agreement, the receipt and sufficiency of which is hereby acknowledged, Assignor hereby unconditionally and irrevocably assigns, transfers and conveys to Assignee and confirms that it did unconditionally and irrevocably assign, transfer and convey to Assignee, its successors and assigns, all of its right, title, and interest, throughout the world, in, to, and under the inventions described and claimed in the Assigned Patents, including any re-examination certificates, reissues, divisionals, continuations, and all other patents or patent applications claiming priority thereto and the entire right, title and interest in and to any and all patents that may be granted therefore throughout the world and hereby authorizes and requests the United States Commissioner of Patents and Trademarks (and all other foreign patent offices and patent authorities) to issue said patents to said Assignee of the entire right, title and interest in and to the same to the full end of the term for which said patents may be granted, as fully and entirely as the same would have been held by the Assignor had this assignment and sale not been made, together with all claims for damages by reason of past, present, or future infringement, with the right to sue for damages and collect the same for its own use and enjoyment and for the use and enjoyment of its successors, assigns or other legal representatives.

2. **Further Assurances.** Assignor shall execute any instruments or documents and perform all other acts necessary or appropriate, in the reasonable discretion of the Assignee, to further evidence the intent and purpose of this Assignment.

3. **Counterparts.** This Assignment may be executed in one or more counterparts, each of which shall be deemed an original but all of which together will constitute one and the same instrument. Delivery of an executed counterpart of a signature page to this Assignment by facsimile, portable document format or other electronic means shall be effective as delivery of a manually executed counterpart to this Assignment.
