ASSIGNMENT

WHEREAS, Flavio Yuji Ikoma, of Presidente Prudente - SP, Brazil, has invented a certain invention, entitled LOCKING MECHANISM FOR FOLDING KNIFE, for which I am making application for Letters Patent of the United States, said application having been filed on <u>September 15</u>, 2014 as U.S. Application No. <u>62/050,648</u>, wherein said invention pertains to a locking/safety mechanism for a folding knife, a prototype of which is shown in the photographs of Exhibit A of this Assignment; and

WHEREAS, GB II Corporation, an Oregon corporation doing business as Columbia River Knife & Tool Company (CRKT), having a place of business at 18348 SW 126th Place, Tualatin, Oregon 97062, has entered into a License Agreement with Flavio Yuji Ikoma with respect to the invention effective January 1, 2009; and

WHEREAS, CRKT desires to acquire an interest therein:

NOW, THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged, Flavio Yuji Ikoma ("Assignor") hereby sells, assigns and transfers to CRKT, the full and exclusive right, title and interest in and to said invention, patent application and patent rights throughout the world, including foreign patent priority rights, the right to file and prosecute International Applications under the Patent Cooperation Treaty, and the right to file and prosecute applications under the European Patent Convention; said invention, patent application and letters patent in this or any foreign country, and all corresponding non-provisional applications, divisions, continuations, continuations-in-part, reissues and extensions thereof, to be held and enjoyed by CRKT, for its own use and benefit, and for its successors and assigns to the full end of the term for which letters patent may be granted by the United States or any foreign country, as fully and entirely as the same would have been held by me had this assignment and sale not been made, and covenant that I have full right so to do, and agree that I will communicate to CRKT, or its successors and assigns, any facts known to me respecting said invention, and testify in any legal proceeding, sign all lawful papers, execute all divisional, continuing and reissue applications, make all rightful oaths, and do everything possible to aid CRKT, its successors and assigns to obtain and enforce proper patent protection for said invention in the United States or any foreign country.

Assignor hereby grants the law firm of Klarquist Sparkman, LLP, the power to insert on this Assignment any further information (including, but not limited to, the serial number and filing date of the patent application) which may be necessary or desirable in order to comply with all applicable legal requirements, including the rules of the United States Patent and Trademark Office, for submitting and recording this document.

Notwithstanding this Assignment, Assignor expressly reserves a royalty free license to make and sell knives incorporating the invention at a rate of no more than 500 knives per year. In addition to this license, upon written approval of CRKT, Assignor has the right to sublicense the right to make and sell knives incorporating the invention to up to five custom knife makers. CRKT has the right to withhold approval of any sublicense to any custom knife maker to ensure that only reputable makers have access to the invention. CRKT's approval to any potential sublicensee may be unreasonably withheld. Any sublicense to a custom knife maker approved under this paragraph is limited to 250 knives per year.

This Assignment does not effect CRKT's obligation to pay Assignor royalties for Licensed Products in accordance with the License Agreement.
