## ASSIGNMENT OF PATENT RIGHTS

This Assignment, effective as of the 11th day of November, 2015, is by and between University of Wyoming Research Corporation d/b/a Western Research Institute, having its principal office at 3474 North 3rd Street, Laramie, WY 82072 (the "Assignor") and Advanced Environmental Technologies LLC whose address is 4025 Automation Way, Unit F-4, Fort Collins, CO 80525 (the "Assignee").

**WHEREAS**, the parties desire to transfer to the Assignee all right, title, and interest in and to certain technology relative to the field involving methods of enhancing biodegradation of groundwater contaminants known as the "LNAPL" technology as such is disclosed in or covered by US Patent No. 7,384,556, as corrected via a Certificate of Correction published July 13, 2010, with all proprietary rights available thereby and useful to or necessary for commercialization thereof (the "Technology");

**NOW, THEREFORE**, for \$10.00 or other good and valuable consideration, receipt and sufficiency of which is hereby acknowledged, the parties hereby agree as follows:

1. The Assignor represents and warrants that it has the authority to assign all right, title and interest in and to the Technology and has conveyed no undisclosed right, title, or interest in or to any of the Technology.
2. The Assignor, for good and valuable consideration, receipt of which is hereby acknowledged, hereby sells, grants, transfers, and assigns to the Assignee the entire right, title, and interest in and to the Technology, including domestic rights to exclude others from making, using, selling and offering to sell in the US, and importing into the US, the Technology. The Assignee agrees to pay any and all patent maintenance fees in order to maintain US 7,384,556 after the execution of this assignment, as Assignee desires.
3. The Assignor covenants and agrees that it will testify in any legal proceeding, sign all lawful papers, execute any additional documentation, make all rightful oaths, and generally do everything possible to aid Assignee to enforce full protection and title in and to the Technology but at the cost and expense of the Assignee. Assignor agrees to cooperate with Assignee and/or its designees in enforcing any proprietary right in any country related to the Technology, including any patent right related to the Technology, and agrees to make requested personnel available for Assignee enforcement efforts, but only to the extent reasonable for the Assignor at that time.
4. This assignment shall be construed and enforced in accordance with the laws and jurisdiction of the state of Colorado or under the federal laws of the United States to the extent the supersede state law. In the event any claim or controversy arises under this agreement or the parties' relationship, the parties agree to submit to exclusive jurisdiction and venue for the resolution of such dispute in the District Court of Larimer County, Colorado, or to the extent necessary in federal court in the District of Colorado, United States of America.
5. This assignment shall be binding on all parties, their heirs, executors, administrators, successors, and/or assigns. In the event any provision of this Agreement is found to be unenforceable or to be unreasonable in scope, such provision shall be modified to the extent necessary to make it enforceable, and as so modified, this Agreement shall remain in full force and effect.
