Assignment of Invention, Patent Application, and All Associated Rights

In consideration of the sum of one dollar (\$1.00) each unto the other paid, and for other good and valuable consideration, the sufficiency and receipt of which is hereby acknowledged, the undersigned party, JOHN BODEKER SAVAGE, M.D. (hereinafter referred to as "Assignor"), does hereby sell, assign, and transfer to SAVAGE MEDICAL DESIGN LLC, a Florida limited liability company (hereinafter referred to as "Assignee"), all of his right, title, and interest in and to the invention (hereinafter referred to as the "Invention") disclosed in U.S. Patent Application No. 14/735,068, AN INTRAMEDULLARY FIXATION APPARATUS AND SYSTEM FOR USE IN HIP AND FEMUR FRACTURE SURGERY (hereinafter referred to as the "Application"), and in any and all applications for patent and in any patents in any and all countries, including all divisions, continuations, reissues, and extensions thereof, and all rights of priority, if any, resulting from the filing of said Application. The Assignor further authorizes and requests any official whose duty it is to issue patents to issue any patent relying for priority on said U.S. Patent Application No. 14/735,068 to Assignee, or its successors, assigns, or nominees, and agrees that on written request of Assignee, and without further consideration, but at the sole expense of Assignee, the Assignor will communicate to Assignee, or its duly authorized representatives, nominees, successors or assigns any facts known to the Assignor respecting the said Invention and the Application, and testify in any legal proceedings, sign all lawful papers, execute all divisional, continuing, and reissue applications, make all rightful oaths, and generally aid and cooperate with Assignee, and any of its duly authorized representatives, nominees, successors, and assigns to obtain and enforce proper patent protection for said Invention in all countries.

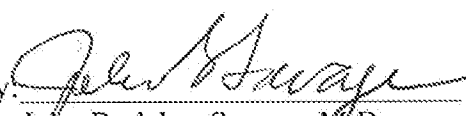

The Assignor represents and warrants, to the best of his knowledge, information, and belief, that no consents of any other parties are legally necessary in order to effectuate the sale, assignment, and transfer of the entire interest of any and all persons in and to the Invention disclosed in the Application, and any and all associated rights thereunder to Assignee, and that upon execution of this assignment, Assignee shall have good and marketable title to the Application and any associated rights thereunder, free and clear of any and all liens, mortgages, encumbrances, pledges, security interests, licenses, or charges of any nature whatsoever.

Dated this 24th day of August 2015
