### ASSIGNMENT

This Assignment is made by Charles W. Hatcher of Trussville, Alabama, Ryan R. Butler of Moody, Alabama, William C. Lucas of Decatur, Alabama and H. Christopher Brakefield of Mountain Brook, Alabama (collectively, the Inventors), to Diamond Fortress Technologies, Inc. a(n) Alabama corporation, having its principal place of business at 1500 1<sup>st</sup> Ave North, Birmingham, Alabama 35203 (the Assignee). Inventors believe that they are the original inventors of TOUCHLESS FINGERPRINTING ACQUISITION AND PROCESSING APPLICATION FOR MOBILE DEVICES (the Invention), which is at least partially described in the above-numbered patent application filed on the above-indicated date (the Application). Inventors represent and warrant that they are the owners of the right, title, and interest in and to the Invention and the Application as inventors, having full right and power to convey their entire interest, both legal and equitable, in this Assignment. Inventors further represent and warrant that the rights transferred in this Assignment are free of lien, encumbrance, or adverse claim.

For valuable consideration, receipt and sufficiency of which are hereby acknowledged, Inventors and Assignee agree as follows:

1. Inventors do hereby sell, assign, convey, and transfer to Assignee, its successors, assigns, nominees, or other legal representatives the full, exclusive, entire, worldwide rights, title, and interest in, to and under said Invention as described and claimed in any form or embodiment thereof, and in and to the Application including in and to any application filed in this or any foreign country based thereon, including the right to file said foreign applications under the provisions of any international convention; also their entire right, title, and interest in and to any and all patents or reissues or extensions thereof to be obtained in this or any foreign country upon the Invention and any divisional, continuation, continuation-in-part, or substitute applications which may be filed upon the Invention in this or any foreign country; and in and to all income, royalties, damages, claims, and payments now or hereafter due or payable with respect thereto; and in and to all causes of action, either in law or in equity, for past, present, or future infringement based on the Invention; and Inventors hereby authorize and request the issuing authority to issue any and all patents on the Invention to said Assignee or its successors and assigns.
2. Inventors further agree to execute all divisional, continuing, substitute, improvement, extension, reissue, and other patent applications in this or any foreign country relating to the Invention or the Application and to sign all other lawful papers and to perform all other lawful acts without further consideration, but without expense to Inventors, which Assignee may deem necessary or desirable to make this Assignment fully effective, including, by way of example but not of limitation, the following acts:
  - a. prompt execution of all lawful oaths, affidavits, and/or supplemental oaths required or deemed advisable by Assignee to further the prosecution of any application or applications for patents relating to the Invention; and
  - b. co-operation to the best of Inventors' ability in the execution of all lawful documents, the production of evidence, and the giving of testimony in interference, opposition, derivation, review, nullification, examination, re-examination, infringement, or other proceedings involving the Invention, the Application, or any other applications or patents upon the Invention or the Application.
3. The Application was made or was authorized to be made by Inventors.

Inventors, intending to be legally bound, have signed this Assignment on the date written by the Inventors' signatures below. Inventors hereby acknowledge that any willful false statement made in this Assignment is punishable under 18 U.S.C. § 1001 by fine or imprisonment of not more than five (5) years, or both. Inventors hereby declare under penalty of perjury that the foregoing is true and correct. Executed on the date indicated.
