RELEASE TO INVENTORS

WHEREAS, Prof. Ruby B. Lee and Jeffrey S. Dvoskin (the "INVENTORS") have disclosed an Invention ("INVENTION") entitled "Hardware trust anchors in SP-enabled processors", Princeton Docket #09-2495-1; and

WHEREAS, said INVENTION was developed under the auspices of Princeton University, a not-for-profit educational institution located in Princeton, New Jersey, "PRINCETON"; and

WHEREAS, the rights of the INVENTORS and PRINCETON in the INVENTION are governed by the terms of the Princeton University Patent Policy, as approved by the Trustees of Princeton University; and

WHEREAS, INVENTORS acknowledge that the United States Government is a sponsor of and has rights in Princeton Docket # 09-2495-1 and PRINCETON must first return the rights to the Government Agency from which the INVENTORS must obtain the rights.

WHEREAS pursuant to the Princeton University Patent Policy, PRINCETON has determined that it does not wish to continue to participate in the patenting or licensing of the INVENTION, and that it is willing to release to the INVENTORS only PRINCETON'S interest therein; and

NOW THEREFORE, in consideration of the mutual provisions of the Princeton University Patent Policy and this Agreement, the parties hereto do agree as follows:

1. PRINCETON hereby releases and transfers to the INVENTORS, and to their heirs, executors, administrators and assigns, all of its right and interest in and to the INVENTION as disclosed to PRINCETON and in and to any and all patents or copyrights, whether United States or foreign, which at any time may be or may have been granted therefor, including any and all renewals, reissues and prolongation thereof. INVENTORS acknowledge and understand that possibly others may possibly own rights to this INVENTION and that PRINCETON is only returning its share of the ownership rights.
2. INVENTORS shall not use the name of PRINCETON nor any adaptation thereof in any advertising, promotional, or sales literature without the prior written consent obtained from PRINCETON in each case.

3. INVENTORS acknowledge and understand PRINCETON shall have no further responsibility or liability in connection with the possible filing of a patent application for the INVENTION and that it shall be the sole responsibility of the INVENTORS to seek their own legal advice in doing so. Moreover, INVENTORS acknowledge and understand that other yet unknown inventors may still have rights to the INVENTION.

4. INVENTORS will be responsible for all future Government reporting requirements.

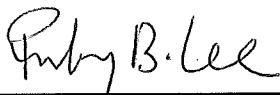

IN WITNESS WHEREOF, this release has been duly executed by PRINCETON and the INVENTORS as of the date set forth below.
