1. **Inventor** has made the invention described in European patent application no. 99112199.7 filed on 24 June 1999 and international patent application no. PCT/DK00/00331 filed on 21 June 2000 entitled, "TYRE BALANCING COMPOSITIONS" ("Invention").
2. The parties agree and herewith confirm that the Inventor's entire right, title and interest in the Invention, including but not limited to the right to claim priority and file applications worldwide, including but not limited to utility models, patent applications, divisional applications, continuation applications, continuation-in-part applications, provisional applications and reissue applications, and the right to engage in reexamination, enforce and/or license the intellectual property rights granted for the above-identified Invention, and recover damages for infringement of the same, were and are thereby assigned and transferred to Assignee, and the successors, assigns and other legal representatives of the Assignee, for good and valuable consideration not less than one dollar for all countries worldwide and under any international agreement, including but not limited to the Paris Convention, the Patent Cooperation Treaty, the European Patent Convention, and the Eurasian Patent Convention.
3. **Inventor** further covenants that **Inventor** will testify on behalf of **Assignee**, its successors and assigns in any legal or administrative proceeding involving one or more applications or granted rights directed to the above-identified Invention and generally do everything possible to aid **Assignee**, its successors and assigns in obtaining, defending and enforcing intellectual property rights in this Invention. This includes both communicating all facts known respecting said Invention and signing and delivering any and all papers, instruments or affidavits required to apply for, obtain, maintain, issue, defend or enforce any application or granted right in the above-identified Invention.
4. This agreement is effective as of 21 June 2000 (the "Effective Date").
5. In case of any controversies, including the validity, construction or performance of this Agreement, the courts of Florida shall have exclusive jurisdiction. This agreement, as well as the underlying assignment of the Invention to **Assignee**, is governed by Florida state law.
