## ASSIGNMENT

WHEREAS, Calvin Wang is the owner ("Assignor") of certain Letters Patent (hereinafter "The Patent") identified as:

VEHICLE EXHAUST TIP HAVING A SEALED FRONT SECTION AND A LOWER  
EXHAUST PORT

Patent No.: D458,570

Issued: June 11, 2002

Inventor(s): Calvin Wang

WHEREAS, Assignor wishes to assign all rights to Pilot, Inc. ("Assignee") an entity having its principal place of business at 13000 Temple Boulevard, City of Industry, California.

NOW THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor irrevocably assigns and transfers to Assignee, effective upon execution, the full and exclusive right, title, and interest, throughout the world, in and to the following:

- (a) the invention as set forth and described, for example, in the patent specification(s) accompanying the Inventor's executed declaration preparatory to obtaining Letters Patent of the United States therefor;
- (b) all United States patent applications for the invention;
- (c) any and all refilings, divisions, continuations, and continuations-in-part of those United States patent applications;
- (d) any and all patents of the United States of America which may issue from any of the above items;
- (e) any and all reissue and reexamination certificates of those United States patents;
- (f) any and all applications for the invention filed in any and all countries foreign to the United States of America;
- (g) any and all refilings, divisions, and continuations of those foreign-filed applications;

- (h) any and all patents, certificates, and registrations of countries foreign to the United States of America which may issue from those foreign-filed applications, refilings, divisions, and continuations;
- (i) any and all extensions of, and additions to, the foreign-filed applications and patents, certificates, and registrations related thereto; and
- (j) any and all claims, causes of action, and damages for past, present, and future infringement or other unauthorized use of the above items, along with the right to sue for and to collect damages and other relief.

Assignor further agrees that upon request Assignor will promptly provide Assignee or its legal representatives all pertinent facts and documents relating to the invention and all other items listed above, and Assignor will testify as to the same in any interference, litigation, or proceeding related thereto. Further, Assignor will promptly execute and deliver to Assignee or its legal representatives any and all papers, instruments, and affidavits required to apply for, obtain, maintain, issue, and enforce all of the items listed above.

All of the above shall be held and enjoyed by Assignee and its successors, legal representatives, and assigns for its own use and benefit, for the full term for which the protections listed above may be granted, and Assignor hereby authorizes and request the Commissioner of Patents and Trademarks to issue patents to Assignee in accordance with this Assignment.

This Agreement does not create any agency, employment, or partnership relationship between the parties. Unless set forth in a separate writing signed by Assignee, Assignor has no right or interest in any proceeds related in any way to the items listed above.

This Agreement is an integrated agreement that contains the entire understanding between the Parties regarding the matters addressed herein and may not be amended, extended or otherwise modified except by written agreement of the parties. This Agreement shall prevail over

all prior communications between and among the parties or their representatives regarding the matters addressed herein.

The parties expressly agree that this Agreement shall not be construed against any party on the ground that such party was responsible for the preparation of this Agreement, or on any related ground. All terms contained herein shall be construed as singular, plural, masculine, feminine, or neuter, as context requires.

Should any provision of this Agreement be determined to be void, unenforceable, or against public policy, such provision may be altered in time or scope in order to give effect to such provision. If such alteration is not possible, such provision shall be deemed severed from this Agreement and the balance of this Agreement shall remain in full force and effect, so long as the original intent of this Agreement remains substantially intact.

ASSIGNOR:

Date

10/1/05

Calvin Wang
