ASSIGNMENT

Whereas, the undersigned inventor(s) has/have made certain inventions, improvements, and discoveries (herein

docket number and/or title of the invention provided above;

Whereas, **Under Armour, Inc.**, a corporation organized and existing under the laws of Maryland and having a place
of business at 1020 Hull Street, Baltimore, Maryland, 21230, is desirous of acquiring the entire right, title, and
interest in and to said invention and in and to any Letters Patent that may be granted therefor in the United States
and in any and all foreign countries; and whereas each undersigned inventor desires to grant to **Under Armour,
Inc.** the entire worldwide right, title, and interest in and to the Invention and in and to any and all patent applications
and patents directed thereto including but not limited to all divisional, continuing, reexamination, and reissue

In addition, each undersigned inventor hereby authorizes and requests the United States Patent and Trademark Office to issue any United States Patent, and foreign patent authorities to issue any foreign patent, granted for the Invention, to **Under Armour, Inc.**, its successors, legal representatives, and assigns, the entire worldwide right, title, and interest in and to the same to be held and enjoyed by **Under Armour, Inc.**, its successors, legal representatives, and assigns to the full end of the terms for which any and all such patents may be granted, as fully and entirely as would have been held and enjoyed by the undersigned had this Assignment not been made.

Each undersigned inventor acknowledges their prior and ongoing obligations to sell, assign, and transfer the rights under this Assignment to **Under Armour, Inc.** and is unaware of any reason why they may not have the full and unencumbered right to sell, assign, and transfer the rights hereby sold, assigned, and transferred, and has not executed, and will not execute, any document or instrument in conflict herewith.
