ASSIGNMENT OF UNDIVIDED INTEREST IN PATENT AND RELATED PATENT APPLICATIONS

This Assignment of Undivided Interest in Patent and Related Patent Applications (the "Assignment") is made and entered into as of August 21, 2014 (the "Effective Date"), by and between NASSIM HARAMEIN, an individual residing in the State of Hawaii ("Assignor") and THE RESONANCE PROJECT FOUNDATION, a nonprofit corporation organized under the laws of the State of Hawaii ("Assignee"). Assignor and Assignee may be referred to hereinafter collectively as the "Parties" or individually as a "Party."

RECITALS

A. Assignor is the inventor of that certain "Device and Method For Simulation of Magnetohydrodynamics," the "Plasma Flow Interaction Simulator", the "Modular Frames for Jewelry", and the "High Energy Crystals" (collectively, "the Inventions"), which were funded, in part, by Assignee.

B. Based upon the relative contributions of Assignor and Assignee to the creation of the Inventions, the Parties have determined that Assignee is entitled to a 25% undivided interest in the Patents and Related Patent Applications (See Exhibit A annexed hereto). The parties agree that Exhibit A may be modified from time to time to include further patent applications related to the Inventions.

C. Assignor and Assignee desire to enter into this Assignment to cause the transfer by Assignor to Assignee of an undivided 25% interest in the Patents and Related Patent Applications.
NOW, THEREFORE, in consideration of the mutual promises of the Parties, and for good and valuable consideration, the receipt, adequacy and legal sufficiency of which are hereby acknowledged, the Parties hereby agree as follows:

AGREEMENT

1. Assignment. Assignor does hereby sell, assign, transfer, convey and deliver to Assignor and Assignee as joint owners the entire right, title, and interest in and to the Patents and Related Patent Applications, not only in the United States and its territorial possessions, but in all countries foreign thereto to be obtained for the subject matter of the Patents, and to any continuation, continuation-in-part, division, renewal, extension, substitute, re-examination or reissue thereof or any legal equivalent in the United States or a foreign country for the full term or terms for which the same may be granted, including all priority rights under any international conventions and treaties, together with all income, royalties, damages or payments due or payable as of the Effective Date or thereafter, including, without limitation, the right to collect and receive all damages, penalties, and other recoveries by reason of past, present or future infringement or other unauthorized use of the Patent and any rights arising from Related Patent Applications, with the right to enforce in any way, including but not limited to the right to sue for, and collect the same for Assignee’s own use and enjoyment, and for the use and enjoyment of its successors, assigns, or other legal representatives. In Assignee’s sole discretion and sole cost, Assignee may join Assignor as a party plaintiff or defendant in any such action or proceeding. Assignor will cooperate, at Assignee’s expense, in diligently doing all necessary acts towards these ends,

2. Division of Interest. Assignor and Assignee hereby agree that by this Assignment, Assignee is hereby granted an undivided twenty-five percent (25%) interest of all right, title, and interest in and to the Patents and Related Patent Applications, and Assignor retains an undivided seventy-five percent (75%) interest of all right, title and interest in and to the Patents and Related Patent Applications, as provided in Section 1 of this Assignment.
3. Authorization. Assignor hereby authorizes and requests the Commissioner of Patents and Trademarks of the United States, and, in the case of any patent applications filed with any office of any country or countries foreign to the United States, any officer of such country whose duty it is to issue patents or other evidence or forms of intellectual property protection or applications as aforesaid, to issue the same to Assignor and Assignee and their successors, assigns and other legal representatives as joint owners in accordance with the terms of this Assignment.

4. Further Actions. The parties agree to do such further acts and things and to execute and deliver such additional confirmatory agreements and instruments as may be reasonably necessary to give effect to the purposes of this Agreement and the parties' agreements hereunder. Assignor covenants and agrees, at its own expense, to execute and deliver, at the request of Assignor and Assignee as joint owners, such additional confirmatory agreements and instruments. Notwithstanding the foregoing, the assignments made hereunder are effective as of the Effective Date hereof. For the avoidance of doubt, the effective date of the assignments contemplated hereby shall not be affected by Assignee's and/or Assignor's request for, or Assignor's taking of, any further confirmatory actions relating to the assignments and assumptions contemplated by this Assignment.

5. Governing Law. This Assignment, the rights and obligations of the Parties hereunder, and any disputes hereunder shall be governed by and construed in accordance with the domestic laws of the State of Hawaii, without giving effect to any choice of law or conflict of law provision or rule (whether of the State of Hawaii or any other jurisdiction) that would cause the application of laws of any jurisdiction other than those of the State of Hawaii.

All notices and other communications hereunder shall be in writing and shall be deemed to have been duly given when delivered in person, by telecopy with answer back, by express or overnight mail delivered by a nationally recognized air courier (delivery charges prepaid), by registered or certified mail (postage prepaid, return receipt requested) or by e-mail with receipt confirmed by return e-mail to the respective Parties as set forth below, or such other address as may be designated in writing hereafter, in the same manner, by such Party:

Any notice or communication sent by registered or certified mail shall be deemed effective on the third business day following the day on which such notice or communication was mailed.

7. Binding Assignment. No Party may, directly or indirectly, in whole or in part, whether voluntarily or involuntarily or by operation of law or otherwise, assign or transfer this Assignment and the rights granted to it hereunder without the other Party’s prior written consent, which consent may be granted or refused at the other Party’s sole discretion. Notwithstanding the foregoing, either Party may assign this Assignment and the rights granted to it hereunder, subject to the Assignee’s assumption of all of the assigning party’s obligations, to a successor in interest without the consent of the other Party upon any merger, acquisition, reorganization, change of control, or sale of all or substantially all of the assets or business of such Party or the sale of all or substantially all of the assets or the business to which this Assignment relates. Any assignment or attempted assignment in violation of this Section shall be null and void from the beginning and shall be deemed a material breach of this Assignment.

8. Third Party Beneficiaries. The terms and provisions of this Assignment are intended solely for the benefit of Assignor and Assignee as joint owners. It is not the intention of the Parties to
confer third-party beneficiary rights upon any other person or entity, and this Assignment does not (shall not be construed to) confer any right or cause of action in, upon or on behalf of any other person or entity, and no person or entity (including any of employee or former employee of any of the Parties) other than the Parties shall be entitled to rely on any provision of this Assignment in any action proceeding, hearing or other forum.

9. Severability. If any provision of this Assignment or the application of any such provision shall be held by a tribunal of competent jurisdiction to be invalid, illegal or unenforceable in any respect under any applicable statute or rule of law, then such provision shall be deemed inoperative to the extent that it is invalid, illegal or unenforceable and the remaining provisions of this Assignment shall continue in full force and effect. The Parties shall endeavour to substitute forthwith such provision with a provision which will most closely correspond to the legal and economic contents of the invalid, illegal or unenforceable provision.

10. No Waiver; Remedies Cumulative. Failure or neglect by a Party to enforce at any time any of the provisions hereof shall not be construed nor shall be deemed to be a waiver of such Party’s rights hereunder nor in any way affect the validity of the whole or any part of this Assignment nor prejudice such Party’s rights to take subsequent action. All rights and remedies conferred under this Assignment or by any other instrument or law shall be cumulative and may be exercised singularly or concurrently.

11. Amendment. Any term of this Assignment may be amended, modified, rescinded, canceled or waived, in whole or in part, only by a written instrument signed by each of the Parties’ authorized representatives or their respective permitted successors and assigns. Any amendment or waiver affected in accordance with this Section shall be binding upon the Parties and their respective successors and assigns.

12. Counterparts. This Assignment may be executed in two or more counterparts, all of which, taken together, shall be considered to be one and the same instrument.
13. **Headings: Construction.** The headings to the clauses, sub-clauses and parts of this Assignment are inserted for convenience of reference only and are not intended to be part of or to affect the meaning or interpretation of this Assignment. The terms “this Assignment,” “hereof,” “hereunder” and any similar expressions refer to this Assignment and not to any particular Section or other portion hereof. The Parties hereto agree that any rule of construction to the effect that ambiguities are to be resolved against the drafting Party will not be applied in the construction or interpretation of this Assignment. As used in this Assignment, the words “include” and “including,” and variations thereof, will be deemed to be followed by the words “without limitation” and “discretion” means sole discretion.

14. **No Partnership.** This Assignment does not constitute and shall not be construed as constituting a partnership, an agency or a joint venture between the Parties. Neither Party shall have any right to obligate or bind the other Party in any manner whatsoever.

15. ** Entire Agreement.** This Assignment constitutes the entire agreement between the Parties in connection with the subject matter hereof and supersedes all prior and contemporaneous agreements, understandings, negotiations and discussions, whether oral or written, of the Parties in conjunction with the subject matter hereof.
IN WITNESS WHEREOF, Assignor has caused this Assignment to be executed as of the Effective Date.
