## PATENT ASSIGNMENT

This PATENT ASSIGNMENT ("**Patent Assignment**"), dated 12-9-2015, is made by Mark E. Cook ("**Seller**"), an individual located at 705 E Denman, Lufkin, Texas 75901, in favor of Jimmy Cassels ("**Buyer**"), an individual located at 117 E Lufkin Avenue, Lufkin, Texas 75901.

The parties agree as follows:

1. **Assignment.** In consideration of TEN dollars and other good and valuable consideration, the receipt and sufficiency are hereby acknowledged by Seller, Seller hereby irrevocably conveys, transfers and assigns to Buyer, and Buyer hereby accepts, all of Seller's right, title and interest in and to the following (the "**Assigned Patents**"):

(a) the patents and patent applications set forth in Schedule 1 hereto and all issuances, divisions, continuations, continuations-in-part, reissues, extensions, reexaminations and renewals thereof, and rights to patent inventions of Seller described therein (the "**Patents**");

(b) all rights of any kind whatsoever of Seller accruing under any of the foregoing provided by applicable law of any jurisdiction, by international treaties and conventions and otherwise throughout the world;

(c) any and all royalties, fees, income, payments and other proceeds now or hereafter due or payable with respect to any and all of the foregoing; and

(d) any and all claims and causes of action, with respect to any of the foregoing, whether accruing before, on and/or after the date hereof, including all rights to and claims for damages, restitution and injunctive and other legal and equitable relief for past, present and future infringement, misappropriation, violation, misuse, breach or default, with the right but no obligation to sue for such legal and equitable relief and to collect, or otherwise recover, any such damages.

2. **Recordation and Further Actions.** Seller authorizes governmental officials to record and register this Patent Assignment upon request by Buyer. Seller will, at any time upon the request and at the expense of said Buyer, execute and deliver any and all papers and do all lawful acts that may be necessary or desirable, in the opinion of said Buyer, to enable and assist the Buyer to (a) obtain patents, both domestic and foreign, on the inventions described in the Patents, including without limitation execution of assignments of applications and priority rights and powers of attorney; (b) establish, maintain and secure title in Buyer, its successors and assigns, to the Assigned Patents, including making such title of lawful public record; and (c) defend, establish or otherwise preserve the validity of the Assigned Patents against any and all infringers, and perform such other acts as are necessary to give full force and effect to the foregoing assignment.

3. **Representations.** To the best of Seller's knowledge, and except as disclosed on Schedule 1, and without acknowledging whether the Assigned Patents are valid and enforceable, Seller represents and warrants that: (a) he has not granted or conveyed to any other person or entity any license under, or security or ownership interest in, or otherwise mortgaged, pledged, or encumbered, the Assigned Patents, and (b) there are no licenses or other claims of entitlement, either actual or implied, to exploit the Assigned Patents. Except for the limited representations

given above, Seller sells and transfers the Assigned Patents as is, with all faults, and hereby disclaims any other express or implied representations or warranties whatsoever, including, without limitation, warranties of merchantability, quiet enjoyment or fitness for a particular purpose or as to the title, value or quality of the Assigned Patents.

4. Counterparts. This Patent Assignment may be executed in counterparts, each of which shall be deemed an original, but all of which together shall be deemed to be one and the same agreement. A signed copy of this Patent Assignment delivered by facsimile, e-mail or other means of electronic transmission shall be deemed to have the same legal effect as delivery of an original signed copy of this Patent Assignment.

5. Successors and Assigns. This Patent Assignment shall be binding upon and shall inure to the benefit of the parties hereto and their respective successors and assigns.

6. Governing Law. This Patent Assignment and any claim, controversy, dispute or cause of action (whether in contract, tort or otherwise) based upon, arising out of or relating to this Patent Assignment and the transactions contemplated hereby shall be governed by, and construed in accordance with, the laws of the United States and the State of Texas, without giving effect to any choice or conflict of law provision or rule (whether of the State of Texas or any other jurisdiction).

IN WITNESS WHEREOF, Seller has duly executed and delivered this Patent Assignment as of the date first above written.
