Patent Assignment

This Patent Assignment ("Patent Assignment") is entered into as of March 29, 2013, by and between *aap* Biomaterials GmbH ("Assignor") and Stryker Ireland Limited ("Assignee"). This Assignment is made pursuant to and in connection with the transfer of the Purchased Assets to Assignee pursuant to a certain Asset Purchase Agreement by and between Assignor and Assignee dated the same date as this Assignment (the "Purchase Agreement"). Capitalized terms not otherwise defined in this Agreement have the meanings ascribed to them in the Purchase Agreement.

For good and valuable consideration provided in connection with the sale and purchase of assets pursuant to the Purchase Agreement, the receipt and sufficiency of which is hereby acknowledged, Assignor hereby sells, assigns, and transfers to Assignee, its successors and assigns, and Assignee hereby accepts, Assignor's entire right, title, and interest in and to the Patents included in the Seller Intellectual Property, including but not limited to the patents and patent applications listed below and any continuation, continuation-in-part, divisional, reexamination, reissue and/or extension or any foreign counterparts of such applications or patents, whether or not such patents have already issued (collectively, the "Patent Rights"), and Assignor hereby further assigns to Assignee, its successors and assigns, and Assignee hereby accepts, the priority rights provided by the International Convention. Assignor further assigns to Assignee, its successors and assigns, and Assignee hereby accepts, the entire right, title and interest in and to all claims for damages by reason of past infringement of the Patent Rights, together with the right to sue for, collect, and retain the proceeds for any past, present, and future infringement of the Patent Rights.

Assignee hereby authorizes and requests the U.S. Patent and Trademark Office and like entities in foreign countries to issue future patents granted on the patent applications listed above to Assignee.

Assignor hereby confirms having agreed, and to the extent necessary does hereby agree, to cooperate with Assignee, its successors and assigns, in proceedings or transactions involving the patents and patent applications included in the Patent Rights, including the giving of statements and producing of evidence reasonably necessary or desirable to secure allowance of the patent applications included in the Patent Rights, including but not limited to those listed above, and to perform any and all other acts reasonably necessary or desirable to vest in Assignee the entire right, title and interest of the Patent Rights such that the Patent Rights will be held and enjoyed by Assignee, its successors and assigns, as fully and entirely as if the Patent Rights would have been held and enjoyed by Assignor had the assignment to Assignee not been made.

Assignor warrants that no assignment, sale, agreement, or encumbrance has been or will be made or entered into which would conflict with this Patent Assignment.

This Patent Assignment has been executed by the parties as of the Closing Date.
