CONFIRMATORY PATENT ASSIGNMENT

This Confirmatory Patent Assignment (this "**Assignment**") is made effective as of December 22nd, 2015 by and between **ZENITH PRODUCTS CORPORATION**, having a place of business at 400 Lukens Drive, New Castle, Delaware 19720, USA ("**Assignor**") and **DECOLIN INC.**, having a place of business at 9150 Park Avenue, Montreal, Quebec H2N 1Z2, Canada ("**Assignee**").

WHEREAS, Assignor, Assignee and ZPC Acquisition Corporation have entered into an asset purchase agreement dated as of the date of this Assignment (the "**APA**"), pursuant to which Assignor has agreed to sell to Assignee, and Assignee has agreed to purchase from Assignor the Purchased Intangible Assets, including, without limitation, the patents and patent applications identified and set forth on Schedule "A" attached hereto (the "**Patents**");

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which the parties hereto hereby acknowledge, the Assignor hereby confirms, subject to the terms of the APA, that the Assignor assigns, transfers, and conveys to the Assignee all of the Assignor's right, title, and interest throughout the world in and to (1) the Patents and (2) all rights to bring an action, whether at law or in equity, for infringement or misuse of the Patents against any third party, and all rights against any third party to recover damages, to recover profits, and to secure injunctive relief for all past, present, or future infringement or misuse of the Patents.

AND ASSIGNOR HEREBY authorizes and requests the Commissioner of Patents and Trademarks of the United States Patent and Trademark Office, the Commissioner of Patents of the Canadian Intellectual Property Office, and any other country's official whose duty it is to issue patents or other evidence or forms of intellectual property or industrial property protection, to issue these to the Assignee, its successors, legal representatives, and assigns, in accordance with the terms of this Assignment.

AND ASSIGNOR HEREBY covenants and agrees that Assignor will provide reasonable cooperation in the making and prosecution of any applications for patent, that the Assignee may elect to make, covering any of the Patents; in the enforcement of the Patents and in the prosecution of any interference or reexamination that may arise involving the Patents hereby assigned; and that Assignor will execute and deliver to the Assignee any and all lawful papers that may be requested by the Assignee to obtain any and all of the Patents and to vest the same in the Assignee, its successors, assigns, or legal representatives, including for any divisional, continuation, reissue, and non-US applications. Any reasonable expenses or losses (including loss of employee's time) incurred by Assignor arising from extending such reasonable cooperation, will be paid for by proper arrangement with Assignee. Notwithstanding the foregoing, Assignee shall not be required to pay Assignor any amounts associated with minor tasks such as the execution of confirmatory assignments or forms relating to the transfer of ownership or other similar tasks.

AND ASSIGNOR HEREBY covenants and agrees that Assignor has full right to convey the entire interest herein assigned and that Assignor has not executed, and will not execute, any agreement that conflicts with this Assignment.

Assignor and Assignee agree that multiple copies of this Assignment may be executed, each of which shall be deemed an original, and each of which shall be valid and binding upon Assignee and Assignor.

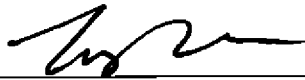

In the event of any conflict between the terms of this Assignment and the APA, the terms of the APA shall prevail.

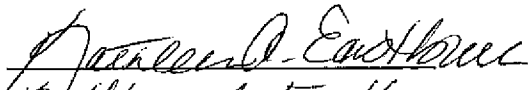

This Agreement shall be governed by the laws of the State of Delaware, without regard to any conflicts of law rules or principles that would result in the application of the laws of another jurisdiction.
