ASSIGNMENT

For good and valuable consideration, the receipt and sufficiency of which are acknowledged, I assign to **Cameron Rig Solutions, Inc.** ("the Assignee"), having a place of business at 5300 W. Sam Houston Parkway N., Houston, Texas 77041, my entire interest in: (1) any inventions or improvements disclosed in a United States Patent Application currently entitled "**ANTI-TWO-BLOCK SENSING SYSTEMS**"; (2) this United States Patent Application and all other patent applications that have been or will be filed in the United States or in other countries based on any such inventions or improvements; and (3) any patents issuing from this United States Patent Application or such other patent applications.

I authorize the Assignee to insert the following additional information identifying the United States Patent Application referenced above after execution of this agreement:

U.S. Patent Application No. _____, filed on _____.

I agree that the Assignee has the right to apply for patents and file additional patent applications under the provisions of any law, convention, or treaty and to claim priority based on the United States Patent Application above or any inventions or improvements disclosed therein.

For any patent granted on a patent application assigned herein, I authorize and request that the issuing authority grant and issue such patent to the Assignee.

I covenant that I have not previously entered into an agreement with another that would affect the rights and property assigned herein, that I will not enter into any agreement with another that would purport to affect the rights and property assigned herein, and that I have the right to enter into the present agreement with the Assignee.

To carry out in good faith the intent of this agreement, upon request and at the expense of the Assignee, and without further consideration to me, I agree to: (1) execute any papers deemed by the Assignee to be necessary to secure, maintain, or enforce patent protection for the inventions and improvements assigned herein; (2) communicate to the Assignee all facts known to me relating to such inventions and improvements; and (3) cooperate with the Assignee in any dispute involving any patent application or patent assigned herein.

The duties and benefits set forth in this agreement extend to the respective successors of the undersigned and the Assignee.
