and in and to said applications and all utility, divisional, continuing, substitute, renewal, reissue,
and all other patent applications which have been or shall be filed in the United States and all
foreign countries on any of said improvements; and in and to all original and reissued patents
which have been or shall be issued in the United States and all foreign countries on said
improvements; and in and to all rights of (both domestic and foreign) priority to and from any
and all domestic and foreign applications resulting from the filing of said United States patent
application; and

Agree that said Assignee may apply for and receive patents for said improvements in its own
name; and that, when requested, without charge to, but at the expense of, said Assignee, its
successors, assigns and legal representatives, to carry out in good faith the intent and purpose
of this Assignment, the undersigned will execute all divisional, continuing, substitute, renewal,
reissue, and all other patent applications on any and all said improvements; execute all rightful
oaths, assignments, powers of attorney and other papers; communicate to said Assignee, its
successors, assigns, and representatives, all facts known to the undersigned relating to said
improvements and the history thereof; and generally do everything possible which said
Assignee, its successors, assigns or representatives shall consider desirable for aiding in
securing and maintaining proper patent protection for said improvements and for vesting title to

said improvements and all applications for patents and all patents on said improvements, in said Assignee, its successors, assigns and legal representatives; and
Covenant with said Assignee, its successors, assigns and legal representatives that no assignment, grant, mortgage, license or other agreement affecting the rights and property herein conveyed has been made to others by the undersigned, and that full right to convey the same as herein expressed is possessed by the undersigned.
