# ASSIGNMENT OF INVENTION AND PATENT APPLICATION

Lothar Pantel of Neckargemünd, Germany (hereinafter "Assignor") is inventor, patent applicant and owner of the invention "Selective shingled magnetic recording scheme," (hereinafter "Patent Application").

inodyn NewMedia GmbH, a corporation organized and existing under the laws of Germany, of Neckargemünd, Germany (hereinafter "Assignee") is owned and managed by Assignor.

The invention is made as a result of activity within the scope of Assignor's duties as managing shareholder. Assignor has an obligation to legally transfer rights of the invention to Assignee in accordance with the management contract between Assignor and Assignee.

Therefore Assignor assigns to Assignee 100% of his right, title, and interest in the invention and Patent Application (as well as such rights in any divisions, continuations in whole or part or substitute applications) to Assignee for the entire term of the issued Patent and any reissues or extensions that may be granted.

Assignor authorizes the United States Patent and Trademark Office to issue any Patents resulting from the Patent Application to Assignee according to the percentage interest indicated in this assignment. The right, title and interest is to be held and enjoyed by Assignee and Assignee's successors and assigns as fully and exclusively as it would have been held and enjoyed by Assignor had this assignment not been made.

Assignor further agrees to: (a) execute the prosecution of the Patent Application; (b) perform such other acts as Assignee lawfully may require to obtain or maintain the Patent for the invention at the United States Patent and Trademark Office.
