PATENT ASSIGNMENT

This Patent Assignment ("Assignment") is made and entered into as of January 13, 2016 by and between Stonesoft Oy (business identity code 0837548-0), a limited liability company incorporated and existing under laws of Finland (hereinafter referred to as "ASSIGNOR"), as successor in interest to all Patent Rights (as defined below), and Websense Finland Oy (business identity code 2730746-7), a limited liability company incorporated and existing under laws of Finland (hereinafter "ASSIGNEE").

WHEREAS, ASSIGNOR is the owner of the patent applications and patents attached hereto as Attachment 1 (the "Patent Rights") and ASSIGNEE is desirous of acquiring the Patent Rights.

NOW, THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged, ASSIGNOR, in accordance with that certain Asset Purchase Agreement between ASSIGNOR and ASSIGNEE dated on October 23, 2015 (together with all schedules and exhibits provided thereunder, in each case, as amended and supplemented from time to time, the "Purchase Agreement"), does hereby irrevocably sell, convey, assign and transfer unto said ASSIGNEE the full and exclusive right in and to said Patent Rights, including all rights therein provided by international conventions and treaties, all rights to reissues, divisions, continuations, continuations-in-part, extensions, renewals and reexaminations, all rights to sue and recover damages for past, present and future infringement or other violation thereof or conflict therewith, and letters patent which may be granted therefor ("Letters Patent").

ASSIGNOR shall, at the request of ASSIGNEE, timely execute and deliver any additional documents and perform such additional acts that may be necessary to assist ASSIGNEE (or its successors, assigns or legal representatives) in the implementation, recordation or perfection of this Assignment and ASSIGNEE's interest in and to the Patent Rights.

ASSIGNOR hereby authorizes and requests patent office officials in the United States and its territorial possessions and in any and all foreign countries to issue any and all of said Letters Patent, when granted, to said ASSIGNEE as the assignee of the entire right, title and interest in and to the same, for the sole use and benefit of said ASSIGNEE and said ASSIGNEE's successors and assigns, to the full end of the term for which said Letters Patent may be granted, as fully and entirely as the same would have been held by ASSIGNOR had this assignment and sale not been made.
