ASSIGNMENT

WHEREAS, we, William Purdy and Robert Purdy (collectively referred to herein as “**ASSIGNORS**”), have invented certain inventions and improvements disclosed on the attached Exhibit A (collectively referred to herein as the “**Purdy IP**”) and own the entire right, title and interest in the Purdy IP;

WHEREAS, MÖLNLYCKE HEALTH CARE US, LLC, a Delaware limited liability company, having a principal place of business at 5500 Peachtree Parkway, Suite 500, Norcross, Georgia 30092 (“**ASSIGNEE**”), desires to acquire the entire right, title and interest in and to the Purdy IP listed on the attached Exhibit A.

NOW, THEREFORE, for good and valuable consideration paid by ASSIGNEE, the receipt and sufficiency of which are hereby acknowledged, ASSIGNORS by these presents do hereby sell, assign, transfer and convey unto ASSIGNEE, the entire right, title and interest in and to the Purdy IP listed on the attached Exhibit A; in and to the inventions set forth therein, including without limitation the full, exclusive and entire right, title, and interest in and to all inventions and improvements disclosed and described in the Purdy IP; in and to any patents which may issue on the Purdy IP, including without limitation in and to any additional U.S. nonprovisional or foreign applications corresponding thereto, in whole or in part; in and to any Letters Patent and similar protective rights granted on said U.S. nonprovisional or foreign applications; in and to any reissue, renewal, divisional, continuation-in-part, continuation thereof, or any other application claiming priority to any of the Purdy IP, including without

limitation the right to claim any applicable priority rights arising from or required for said U.S. nonprovisional or foreign applications under the terms of any applicable conventions, treaties, statutes, or regulations; said U.S. nonprovisional or foreign applications to be filed and issued in the name of ASSIGNEE, or its designee insofar as permitted by applicable law; including without limitation all rights ASSIGNORS may have to sue for damages and other remedies in respect of any infringement of the patents which may have occurred before the date of this assignment; the same to be held and enjoyed by ASSIGNEE, for its own use and behalf, and for its legal representatives and assigns, to the full end of the term for which said patents are granted, as fully and entirely as the same would have been held by the ASSIGNORS had this assignment and sale not been made.

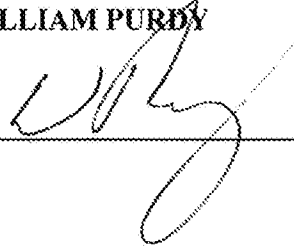

AND, for the same consideration, ASSIGNORS agree to sign all lawful papers, execute all nonprovisional or other applications, make all assignments and rightful oaths, and generally do everything possible to aid ASSIGNEE, its successors, assigns, and nominees to obtain and enforce proper protection for all said inventions and improvements in all countries throughout the world.

Signed this 12<sup>th</sup> day of February, 2016.
