ASSIGNMENT

I, Antonius Martinus van Oijen,

with a post office address at Zernike Institute for Advanced Materials, Nijenborgh 4, 9747 AG Groningen, the Netherlands; being the inventor of certain improvements in the United States provisional application entitled: "MOLECULAR SLEDS AND USES THEREOF" for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, hereby assign unto Rijksuniversiteit Groningen having a place of business at Broerstraat 5, 9712 CP GRONINGEN, the Netherlands, its successors and assigns (1) the entire right, title and interest in all countries throughout the world in and to any and all of my inventions and discoveries in my United States Provisional Application No. 61/671,615, filed July 13, 2012, and any United States utility patent applications and PCT International patent applications filed under the Patent Cooperation Treaty designating all PCT member countries/states claiming priority to as well as any renewals, revivals, reissues, reexaminations, extensions, continuations and divisions thereof, and any substitute applications therefore; (2) the full and complete right to file patent applications in the name of Rijksuniversiteit Groningen, or their designee's election, on the aforesaid inventions, discoveries and applications in all countries of the world; (3) the entire right title and interest in and to any Letters Patent which may issue on the aforesaid inventions, discoveries and applications in any country of the world and any renewals, revivals, reissues, reexaminations and extensions thereof, and any patents of confirmation, registration and importation of the same; and (4) the entire right, title and interest in and to all Convention and Treaty Rights of all kinds thereon, including without limitation all rights of priority in any country of the world, in and to the following priority application:

United States Provisional Application No. 61/671,615, filed July 13, 2012

and all rights of priority in the United States and any country of the world claiming priority to the above-identified provisional application.

I hereby authorize and request the competent authorities to grant and to issue any and all such Letters Patent in any country throughout the world to Rijksuniversiteit Groningen as the assignee of the entire right, title and interest therein, as fully and entirely as the same would have been held and enjoyed by me had this assignment, sale and transfer not been made.

I agree, at any time, upon the request of Rijksuniversiteit Groningen to execute and to deliver to Rijksuniversiteit Groningen any additional applications for patents for said inventions and discoveries, or any part or parts thereof, and any applications for patents of confirmation, registration and importation based on any Letters Patent issuing on said inventions, discoveries or applications, and divisions, continuations, renewals, revivals, reissues, reexaminations and extensions thereof.

I further agree, at any time, upon request of Rijksuniversiteit Groningen, to execute and to deliver to Rijksuniversiteit Groningen, such additional documents, if any, as are necessary or desirable to secure patent protection on said inventions, discoveries and applications throughout all countries of the world, and otherwise to do what is necessary to give full effect to and to perfect any and all rights of Rijksuniversiteit Groningen, under this Assignment, including the execution, delivery and procurement of any and all further documents evidencing this assignment, transfer and sale as may be necessary or desirable.

In testimony of which I have hereupon affixed my signature, it is my intention that this Assignment instrument be effective, and all rights transferred herein shall be considered to have vested in Rijksuniversiteit Groningen as from July 13, 2012, the filing date of the first filed United States Provisional Application No. 61/671,615, from which priority is hereby claimed.
