ASSIGNMENT AND AGREEMENT

THIS ASSIGNMENT AND AGREEMENT (this "Agreement"), is entered into by and between **Intelligent Intellectual Property Holdings 2 LLC**, having the principal place of business at 1209 Orange Street, Wilmington, Delaware 19801, USA ("**Assignor**"), and **PS12 Luxco S.à.r.l.**, having the principal place of business at 208, Val des Bons Malades, L-2121, Luxembourg ("**Assignee**").

For good and valuable consideration, the receipt of which is hereby acknowledged, **Assignor** does hereby sell, assign, transfer and convey unto **Assignee**, its successors, assigns or its designees and legal representatives, **Assignor's** entire right, title and interest that exists today and may exist in the future in and to any and all of the patents and applications listed in the attached Exhibit 1 ("**Patents**"), the inventions described therein, and any other governmental grants or issuances throughout the world which directly or indirectly claim priority from **Patents** or for which any of the **Patents** directly or indirectly forms a basis for priority, including but not limited to: (1) any patents, registrations, or certificates of invention that have issued or may issue in the future on any patent applications listed in Exhibit 1 attached hereto; (2) any and all counterpart United States, international, and foreign patents, applications, utility models, industrial design protection, design patent protection, and certificates of invention based upon, covering, or otherwise related to any portion of the foregoing; (3) any expired or abandoned applications or patents based upon, covering, or otherwise related to any portion of the foregoing; (4) patents or other governmental rights that may be granted in the future based upon, covering, or otherwise related to any portion of the foregoing; (5) any continuations, continuations-in-part, divisionals, provisionals, renewals, and extensions of any of the foregoing; (6) all reissues and reexamination certificates of any of the foregoing, and (7) all applications or patents subject to or resulting from any pending inter-partes review, supplemental examination, post-grant review, derivation proceedings, or other review proceeding of any of the foregoing (the foregoing are collectively referred to herein as the "**Patent Rights**").

Assignor further agrees to and hereby does sell, assign, transfer and convey unto **Assignee** all rights: (i) in and to causes of action and enforcement rights for the

Patent Rights (whether known or unknown or whether currently pending, filed, or otherwise), including, without limitation, all rights to pursue damages, injunctive relief and other remedies for past, current and future infringement of the **Patent Rights and to license the Patent Rights**; (ii) to apply in any or all countries of the world for patents, certificates of invention or other governmental grants for the **Patent Rights**, including, without limitation, to invoke and claim for any application for patent or other form of protection for said **Patents** filed by it or them, the benefit of the right of priority provided by under the Paris Convention for the Protection of Industrial Property, the International Patent Cooperation Treaty, or any other convention, treaty, agreement or understanding and to invoke and claim such right of priority without further written or oral authorization from **Assignor**; (iii) to assert the attorney/client and/or solicitor/client privilege associated with the prosecution of the **Patent Rights and/or work product immunity associated with enforcement of the Patent Rights**. **Assignor** further agrees to assert the attorney/client and/or solicitor/client privilege and/or work product immunity to the fullest extent of the law to promote enforcement of the patents; (iv) to collect royalties or other payments under or on account of the Patent Rights; and (v) of cooperation assigned or granted by any third party with respect to the Patent Rights. **Assignor** also hereby authorizes the respective patent office or governmental agency in each jurisdiction to issue any and all patents or certificates of invention which may be granted upon any of the **Patent Rights** in the name of the **Assignee**, as the assignee to the entire interest therein.

Assignor agrees that, when requested, **Assignor** without any further consideration will (i) sign all papers, cause all rightful oaths to be taken, and do or cause to be done all acts which may be necessary, desirable or convenient for securing, maintaining, and enforcing said **Patents** in any and all countries and for vesting title thereto in said **Assignee**, its successors, assigns and legal representatives or nominees.

Assignor hereby consents that a copy of this assignment shall be deemed a full legal and formal equivalent of any assignment, consent to file or like document which may be required in any country for any purpose and more particularly in proof of the right of the said **Assignee** or nominee to claim the aforesaid benefit of the right of priority provided by: (a) the International Convention for the protection of Industrial Property, as amended, or by any convention which may henceforth be substituted for it; and (b) the Patent Cooperation Treaty, as amended, or by any treaty which may henceforth be substituted for it.

Assignor covenants with said **Assignee**, its successors and assigns and legal representatives that the rights and property herein conveyed are free and clear of any encumbrance, and that **Assignor** owns and has full right to convey the same as herein expressed.

Should any part of this Agreement be rendered or declared invalid by a court of competent jurisdiction, such invalidation of such part or portion of this Agreement should not invalidate the remaining portions thereof, and the remaining portions shall remain in full force and effect.

[signature page follows]

IN WITNESS WHEREOF, the **Assignor** and the **Assignee**
have caused this Assignment and Agreement to be duly executed below by
their duly authorized representatives on **7th day of November, 2014**.
