## PATENT ASSIGNMENT

WHEREAS, WE, Lapo Bianchi, residing in Firenze, Italy; and Jacopo Fiaschi, residing in Scandicci (FI), Italy (hereinafter, ASSIGNORS), have invented certain new and useful inventions and improvements in and to the subject matter of:

### **DOUBLE-SECURITY ANTI-THEFT EMERGENCY DEVICE FOR BATTERYLESS MOTOR VEHICLES**

described in a patent application filed with the Italian Patent and Trademark Office on 5 March 2015 and accorded Application No. 102015902336202 (old no. FI2015A000060) (the "Application");

AND, WHEREAS, Betamotor S.P.A., a company organized under the laws of Italy and having an address of Via Pian dell'Isola 72, 50067 Rignano sull'Arno (FI), Italy (hereinafter "ASSIGNEE") is desirous of acquiring certain rights to the inventions and improvements in and under the Application;

NOW, THEREFORE, in consideration of the sum of U.S. One Dollar (\$1.00) or the equivalent thereof, and other good and valuable consideration, receipt of which is hereby acknowledged, We do hereby sell, assign and transfer unto ASSIGNEE, its successors, assigns and legal representatives, our entire right, title and interest in and throughout the United States of America (including its territories and dependencies) and all countries foreign thereto in and to said inventions and improvements, said Application, any other United States applications, including provisional, divisional, renewal, substitute, continuation, reexamination and-reissue-applications, based in whole or in part on said Application or in whole or in part on said inventions and improvements, any foreign applications, including international and regional applications, based in whole or in part on any of the aforesaid United States applications or in whole or in part on said inventions and improvements, and in and to any and all letters patent, including extensions thereof, of any country which have been or may be granted on any of the aforesaid applications or on said inventions and improvements or any parts thereof;

AND We hereby agree for ourselves and our heirs, executors and administrators to execute without further consideration any further documents and instruments which may be necessary, lawful and proper in the prosecution of said Application or in the preparation or prosecution of any continuing, substitute, divisional, renewal, reexamination or reissue application or in any amendments, extensions or interference proceedings, or other applications for patents of any region or country, that may be necessary to secure to ASSIGNEE its interest and title in and to said inventions and improvements or any parts thereof, and in and to said several patents or any of them;

AND We hereby covenant for ourselves and our legal representatives, and agree with said ASSIGNEE, its successors and assigns, that We have granted no right or license to make, use, sell or offer to sell said inventions and improvements, to anyone except said ASSIGNEE, that prior to the execution of this deed, our right, title and interest in said inventions and improvements had not been otherwise encumbered, and that We have not and will not execute any instrument in conflict therewith;

AND in the event the ASSIGNEE is unable, after reasonable effort, to secure any of our signatures on any document relating to the Applications, whether because of our physical or mental incapacity or for any other reason whatsoever, We hereby irrevocably designate and appoint ASSIGNEE and its duly authorized agents as our agent and attorney in fact (which designation and appointment shall be (i) deemed coupled with an interest and (ii) irrevocable, and shall survive our death or incapacity), to act for and in our behalf and stead to execute and file any such application or applications and to do all other lawfully permitted acts to further the prosecution and issuance of letters patent or other analogous protection thereon with the same legal force and effect as if executed by ourselves; and

AND We do hereby authorize and request the Director of the United States Patent and Trademark Office to issue any and all letters patent which may be granted upon said United States applications, or upon said improvements or any parts thereof when granted, to said ASSIGNEE.
