E. INVENTIONS

1. I will disclose promptly to the Company, in writing, all inventions, ideas, developments, materials and discoveries, including software products, which during the period of my employment with the Company I have or which I may conceive, develop, make or reduce to practice, either solely or jointly with others (collectively "make or made") whether patented, the subject of a patent application, patentable or not, including but not limited to processes, methods, formulae, software, techniques, as well as improvements thereof or know-how related thereto, that:
  - a. relate to any subject matter with which my work for the Company may relate or be concerned, whether or not made during normal business hours; or
  - b. relate to, or are connected with the business, products or projects of the company; or
  - c. involve the use of the Company's time, material, facilities or proprietary information.

The foregoing are collectively referred to herein as the "Inventions".

[REDACTED]

2. I will keep complete and current written records of all Inventions I make during the period of time I am employed by Company properly witnessed for use as Invention records and to submit such records to Company when requested or upon termination of my employment with Company.
3. I agree that all Inventions which I make during the period of time I am employed by Company are the sole and exclusive property of Company and I will assign, and do hereby assign, my entire right, title and interest in such Inventions to Company. Company's ownership and the foregoing assignment shall apply, without limitation, to all rights under the patent, copyright, and trade secret laws of any jurisdiction relating to the Inventions.
4. If for any reason under any law of any jurisdiction, including without limitation Section 2870 of the Labor Code of the State of California, all or any portion of the foregoing grant of rights is held unenforceable, I agree to grant, and do hereby grant to the Company, a worldwide, irrevocable, fully paid up right and license in perpetuity with the right to sublicense others, to practice the Invention and to make, have made, use, offer for sale, sell, lease or otherwise dispose of, without restriction, any products incorporating the Invention.
5. At all times during and after my employment by the Company, and at no expense to me, I agree to execute and deliver such assignments, affidavits, oaths and other documents, and to perform such other acts (including appearance as a witness in any contest) as may be requested by the Company to obtain or uphold, for the benefit of the Company, patents and/or copyrights in any and all countries for all Inventions, whether or not I am an inventor thereof, said Inventions to be and remain the property of the Company or its nominees. In the event that the Company is unable for any reason whatsoever to secure my signature to any document reasonably necessary or appropriate for any of the foregoing purposes (including renewals, extensions, continuations, divisions or continuations in part) in a timely manner, I hereby irrevocably

designate and appoint the Company and its duly authorized officers and agents as my agents and attorneys-in-fact to act for me and on my behalf, but only for the purpose of executing and filing any such document and doing all other lawfully permitted acts to accomplish the foregoing purposes with the same legal force and effect as if executed by me.

6. I agree to abide by the foregoing provisions in all respects; specifically, that I will not withhold Inventions conceived or reduced to practice during employment for my own use after employment, that I will not impart to subsequent employers any Confidential Information or trade secrets, and that I will not induce or encourage other employees of the Company to violate the terms of their Employment Agreements.

8. Are you the inventor of any *unissued* and *unpublished* patent applications? (Check One) Yes  No
9. I agree that should a situation arise in which I believe that my job duties may lead to the use of technology claimed or sought to be claimed in a patent issued to or applied for or under preparation naming me as an inventor, or of which I am otherwise aware, I will notify my supervisor and the legal department immediately. I understand that patent applications that are unissued and unpublished may be trade secrets, and agree to abide by all provisions in Section D in notifying my supervisor and the legal department.
10. I agree that if the Company incorporates into a product, process, a machine or otherwise uses an Employee Owned Invention, I agree to grant, and do hereby grant to the Company, a royalty-free, worldwide, irrevocable, fully paid up right and license in perpetuity, to practice the Employee Owned Invention and to make, have made, use, offer for sale, sell, lease or otherwise dispose of any products incorporating the Employee Owned Invention, without restriction, to the extent of my ownership or interest.
