PATENT APPLICATION AND INVENTION ASSIGNMENT

WHEREAS, Gilbert Russell Berry, a resident of the state of Utah (hereinafter "Assignor") has co-invented a vibratory tumbler (the "Invention") for which the following patent application (the "Patent Application") has been filed:

U.S. Patent Application No. 15/001,186

Title: A VIBRATORY TUMBLER

Filing Date: 19 January 2016

WHEREAS, Berry's Manufacturing of Utah, Inc., a Utah corporation with its principle place of business at 401 North 3050 East, St George, Utah 84790 (hereinafter "Assignee") desires to acquire all rights, title and interest Assignor has in the Invention and the Patent Application;

NOW, THEREFORE, for good and valuable consideration paid by the Assignee to the Assignor, the receipt and sufficiency whereof is hereby acknowledged, Assignor hereby grants and assigns unto Assignee, his entire right, title, and interest in the Invention and the Patent Application including, but not limited to, any and all patent applications derived therefrom or claiming priority thereto, divisions, continuations, continuations-in-part, reissues, extensions, designs or their foreign equivalents, and in all corresponding or related applications filed in countries foreign to the United States. Assignor also hereby expressly assigns to Assignee his entire right, title, and interest in any and all patents or foreign equivalents issuing therefrom.

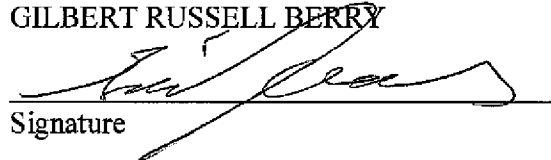

Assignee hereby acquires the right, power and authority to file, in its sole discretion and in its own name where permitted, additional patent applications relating to the Invention in or outside of the U.S. as well as the right, power and authority to prosecute the Patent Application in its own name, wherever such right may be legally

exercised, including the right to claim the priority and benefits of the International Convention. Assignee also hereby acquires the right to bring actions for infringement of any rights in the Invention, the Patent Application and any patents issuing therefrom in its own name, including past infringement, in any jurisdiction.

Assignor further agrees that he will, without additional expense to Assignor, cooperate with and assist Assignee and its successors in interest, in obtaining, perfecting, enforcing and defending its rights in the Invention and Patent Application pursuant to this Agreement including, but not limited to, the execution of documentation required by the U.S. Patent and Trademark Office; under the Patent Cooperation Treaty; or as may be required by patent offices foreign to the United States.

Executed this 29 day of March, 2016.
