ASSIGNMENT

WHEREAS, ICPCHECK Inc. (hereinafter collectively referred to as "Assignor"), having an address of 324B Wall St., Princeton NJ 08540, is the sole and exclusive owner of the invention described in the following patent applications, and is the sole and exclusive owner of all intellectual property rights in and to the subject matter of the following patent applications:

PCT International patent application PCT/US2014/060401 entitled "INTERNAL DYNAMIC AND STATIC PRESSURE/FORCE SENSOR CALIBRATION OF AN INTRACRANIAL PRESSURE SENSOR", and US Application Serial No. 61/961,403, filed on October 15, 2013.

WHEREAS, Aqueduct Critical Care, Inc. (the "Assignee"), is a Washington corporation having a place of business at 11822 North Creek Parkway N, Suite 110, Bothell WA 98011, and desires to acquire the entire right, title and interest in and to said invention, said applications, any letters patent that may be granted for said invention in the United States and in any and all foreign countries, all rights associated with the invention and patent applications and all rights to recover that may stem from the invention and patent applications in the United States and in any and all foreign countries.

NOW, THEREFORE, in consideration of the recitals set forth above and set out in the Acquisition Agreement executed contemporaneously herewith, and for other valuable consideration, the receipt and sufficiency of which are hereby acknowledged; Assignor hereby sells, quit claims, assigns and transfers to Assignee, the entire right, title and interest in and to said invention, said applications and any and all letters patent which may be granted for said invention or result from said applications in the United States and throughout the world, and in and to any and all divisions, reissues, continuations, continuations-in-part, reexamination certificates, utility models or other applications or intellectual property rights of any type covering said invention or based upon or claiming priority to either of said applications or any related application, together with all rights of Assignor associated therewith, including the right to file additional U.S. and foreign applications for said inventions directly in the name of Assignee and to claim priority rights deriving from said applications by virtue of U.S. laws, international conventions, treaty or otherwise, and to sue for and collect damages by reason of past, present or future infringement. Said invention, applications, all letters patent which may be granted for said invention, and all other intellectual property rights covering said invention or

based upon or claiming priority to said applications or any related applications shall be held and enjoyed by Assignee and its successors and assigns as fully and entirely as the same would have been held and enjoyed by Assignor had this assignment, transfer and sale not been made. Assignor hereby authorizes and requests the respective national, regional and international patent offices to issue to Assignee all letters patent which may be granted for said invention or result from said applications. Assignor agrees to execute all instruments and documents required for the making and prosecution of these and related applications for United States and foreign letters patent on said invention, for litigation regarding any related letters patent, or for the purpose of establishing or protecting title to said invention or letters patent therefor.
