ASSIGNMENT AND AGREEMENT

For good and valuable consideration, the receipt of which is hereby acknowledged, Advanced Scientific Concepts, LLC., (f/k/a, Advanced Scientific Concepts, Inc.) a corporation of the State of California, having a principal place of business at 135 E. Ortega Street, Santa Barbara, State of California, United States of America, acknowledges it has sold, assigned, and transferred or hereby sells, assigns and transfers unto ASCar, Inc., a corporation of the State of California, also having a principal place of business at 135 E. Ortega Street, Santa Barbara, State of California, United States of America, the entire right, title and interest in and to the attached listed patents and/or patent applications and the inventions described, illustrated and claimed therein, together with the right, title and interest in and to said applications any and all patents that have been or may be issued upon said applications, and upon any utility model, division, extension, validation, international application, national phase, continuation, continuation-in-part, reissue or reexamination thereof or claiming priority thereto, together with the right to claim priority to and from such patents and patent applications and the right to sue for any past or future infringements thereof and to receive any damages therefor.

Continental Advanced Lidar Solutions US, Inc., a corporation of the State of Delaware, having a principal place of business at 528 East Santa Barbara St, Santa Barbara, State of California, United States of America, is, by way of merger, the successor in interest of the entire interest of ASCar Inc., including the aforementioned patents and/or patent applications and the inventions described, illustrated and claimed therein, as is shown on the attached Entity Details document from the records of the Division of Corporations of the State of Delaware. After review and inquiry by Continental Advanced Lidar Solutions US, Inc., the undersigned believes that it is the owner and/or applicant of the attached listed patents and/or patent applications, and the inventions described, illustrated and claimed therein, together with the right, title and interest in and to said applications any and all patents that have been or may be issued upon said applications, and upon any utility model, division, extension, validation, international application, national phase, continuation, continuation-in-part, reissue or reexamination thereof or claiming priority thereto, together with the right to claim priority to and from such patents and patent applications, which were originally applied for in the name of ASC, Inc. or in the name of ASCar, Inc.

The undersigned represent and warrant that they are officers of the respective entities identified below and that they are duly authorized to sign this document on its behalf.
