ASSIGNMENT

WHEREAS, **Marca Coating Technologies, LLC**, a limited liability company organized under the laws of the State of Ohio, and having an office at 31 Washington Avenue, Scarborough, Maine 04074 (hereinafter referred to as Assignor), is the owner of the legal right, title and interest in and to the patent applications, issued patents (herein referred to as "Letters Patent") and the inventions described in the Schedule attached hereto;

WHEREAS, **Marca Machinery, LLC** a limited liability company organized under the laws of the State of Maine, and having its principal place of business at 5 Sanford Drive, Gorham, Maine 04038, (hereinafter referred to as Assignee) is desirous of acquiring the legal right, title and interest in and to the aforesaid patent applications, Letters Patent, and the inventions therein described;

WHEREAS, Assignor acknowledges that Assignee served as the beneficial owner of the patent applications, Letters Patent, and the inventions described therein, and that the Assignor as the legal owner of the patent applications, Letters Patent, and the inventions described therein, applied for patent protection in the United States Patent Office and under the Patent Cooperation Treaty to facilitate the management and protection of inventions therein described;

NOW, THEREFORE, for good and valuable considerations, the receipt of which is hereby acknowledged, said Assignor has sold, assigned and transferred, and by these presents does confirm said sale, assignment and transfer unto Assignee, its successors and assigns, the entire right, title and interest in and to the inventions as described in the aforesaid patent applications and Letters Patent and any divisions or continuations thereof and the inventions therein disclosed and any improvements thereof, and any patent or patents that may be issued or reissued thereon, the same to be held and enjoyed by the Assignee for its own use and benefit, and for the use and benefit of its successors, assigns or other legal granted or may be granted, as fully and entirely as the same would have been held and enjoyed by the Assignor, if this assignment and sale had not been made; together with all claims for damages by reason of past infringement of the Letters Patents, with the right to sue for, and collect the same for its own use and benefit, and for the use and benefit of its successors, assigns and other legal representatives; Assignor hereby authorizes the Assignee, its successors and assigns, to file in its own name

applications for patents in foreign countries in connection with the inventions hereby transferred, under the international Convention claiming the priority of the United States applications or otherwise, and to secure in its own name the patent or patents issued thereon; and Assignor hereby agrees that, upon request, it will sign all papers, and make all rightful oaths, and do all acts which the Assignee, its successors or assigns, may consider necessary in connection with the United States applications, and in connection with any other United States or foreign applications that may be filed in connection with said inventions, and with any improvements thereon, and in connection with any patents issued or reissued thereon.

IN WITNESS WHEREOF, the Assignor has caused these presents to be signed by its duly authorized officer below named this 17th day of January, 2013.
