## ASSIGNMENT OF PATENT RIGHTS

**WHEREAS** a Patent Assignment agreement (the "Patent Assignment") effective as of September 18, 2013 was entered into by and between Walker Digital, LLC, a Delaware limited liability company, having offices at Two High Ridge Park Rd., Stamford, CT 06905 ("WDLLC"), and Inventor Holdings, LLC, F/K/A Walker Digital Holdings, LLC, a Delaware limited liability company, having offices at Two High Ridge Park Rd., Stamford, CT 06905 ("IHLLC");

**WHEREAS** the Patent Assignment independently memorialized the assignment of a large number of patent assets and clarified certain rights in those patent assets transferred from WDLLC to IHLLC under the terms of a Bill of Sale, Assignment and Assumption Agreement (the "Bill of Sale Agreement") entered into by WDLLC and IHLLC on September 18, 2013;

**WHEREAS** WDLLC and IHLLC both acknowledge herein that neither of the parties intended that the Bill of Sale Agreement or the Patent Assignment would assign any right, title, or interest of Assignor in certain excluded patent assets, specifically, the patent assets listed in Schedule 1 -- Excluded Patent Assets attached hereto (the "Excluded Patent Assets"), which were intentionally excluded from Schedule A of the Bill of Sale Agreement and from Schedule 1 of the Patent Assignment;

**WHEREAS** WDLLC and IHLLC both agree herein that to the extent that any right, title or interest in any of the Excluded Patent Assets may have been erroneously, inadvertently and unintentionally assigned to IHLLC by operation of provisions of the Bill of Sale Agreement or the Patent Assignment, the most efficient manner to adhere to each party's intent is to effectively rescind any such assignment of the Excluded Patent Assets by IHLLC's re-assigning of the Excluded Patent Assets to WDLLC;

**NOW, THEREFORE**, for good and valuable consideration, the receipt of which is hereby acknowledged, IHLLC (the "Assignor") subject to the terms of the Bill of Sale Agreement and the Patent Assignment effective September 18, 2013, does hereby sell, assign, transfer, and convey unto WDLLC (the "Assignee"), or its designees, all right, title, and interest that exist today and may exist in the future in and to any and all of the following (collectively, the "Patent Rights"):

- (a) the Excluded Patent Assets listed in attached Schedule 1 -- Excluded Patent Assets;
- (b) all reissues, reexaminations, extensions, continuations, continuations-in-part filed after September 18, 2013, continuing prosecution applications, requests for continuing examinations, divisions, and registrations of any of the Excluded Patent Assets;
- (c) all foreign patents, patent applications, and counterparts relating to any item in any of the foregoing categories (a) through (b), including, without limitation, certificates of invention, utility models, industrial design protection, design patent protection;

(d) all items in any of the foregoing in categories (a) through (c), whether or not expressly listed in Schedule 1 – Excluded Patent Assets, and whether or not claims in any of the foregoing have been rejected, withdrawn, cancelled, or the like;

(e) all rights to apply in any or all countries of the world for patents, certificates of invention, utility models, industrial design protections, design patent protections, or other governmental grants or issuances of any type related to any item in any of the foregoing categories (a) through (d), including, without limitation, under the Paris Convention for the Protection of Industrial Property, the International Patent Cooperation Treaty, or any other convention, treaty, agreement, or understanding;

(f) all rights of action for any and all infringement (whether known or unknown, past, present or future, currently pending, filed, or otherwise) and other enforcement rights under, or on account of, any of the Excluded Patent Assets and/or any item in any of the foregoing categories (a) through (e), including, without limitation, all causes of action and other enforcement rights for:

- (i) damages, past, present, or future;
- (ii) injunctive relief;
- (iii) any other remedies of any kind for past, current, and future infringement; and
- (iv) all rights to collect royalties and other payments under or on account of any of the Excluded Patent Assets and/or any item in any of the foregoing categories (a) through (e).

**AND** for the same consideration, Assignor hereby represents and warrants to Assignee, its successors, legal representatives, and assigns, that, at the time of execution and delivery of this Assignment of Patent Rights, except for any rights, titles, and/or interests that have arisen to Assignee under law or that have already been transferred to Assignee, to the extent that any right, title, and interest were previously transferred unintentionally to Assignor by the Bill of Sale Agreement or the Patent Assignment, Assignor is the sole and lawful owner of the entire right, title, and interest in and to the Excluded Patent Assets unintentionally transferred, and that the same are unencumbered, except as expressly set forth in the Bill of Sale Agreement and Patent Assignment, and that Assignor has good and full right and lawful authority to sell and convey the same in the manner according to the terms of this Assignment of Patent Rights, the Bill of Sale Agreement and the Patent Assignment.

**AND** Assignor hereby covenants and agrees to and with Assignee, its successors, legal representatives, and assigns, that Assignor will sign all papers and documents, take all lawful oaths and do all acts necessary or required to be done for the procurement, maintenance, enforcement, and defense of any Patent Rights, whenever counsel of Assignee, or counsel of its successors, legal representatives and assigns, shall advise: that any proceeding in connection with said Patent Rights, or any proceeding in connection with any Patent Rights in any country, including but not limited to interference proceedings, is lawful and desirable; or, that any division, continuation, or continuation-in-part filed after September 18, 2013 of any of the

Excluded Patent Assets, or any reissue, reexamination, or extension of any of the Excluded Patent Assets, to be obtained thereon, is lawful and desirable.

**AND** Assignor hereby authorizes the respective patent office or governmental agency in each jurisdiction to issue any and all patents, certificates of invention, utility models, or other governmental grants or issuances that may be granted upon any of the Patent Rights in the name of Assignee, as the assignee to the entire interest therein.

**AND** the terms and conditions of this assignment of the Patent Rights will inure to the benefit of Assignee, its successors, assigns, and other legal representatives and will be binding upon Assignor, its successors, assigns, and other legal representatives.
