INTELLECTUAL PROPERTY ASSIGNMENT

This INTELLECTUAL PROPERTY ASSIGNMENT (the "Assignment") is dated as of October, 31, 2014, and is made by SP Plus Corporation, a Delaware corporation ("Assignor") in favor of Parkmobile, LLC, a Delaware limited liability company ("Assignee"). Assignor and Assignee shall hereinafter individually be referred to as a "Party" and collectively be referred to as the "Parties." All capitalized terms used but not defined herein shall have the meaning ascribed to them in the Contribution Agreement (as defined below).

WHEREAS, Assignor and Assignee are parties to a Contribution Agreement, dated as of the date hereof (the "Contribution Agreement"), pursuant to which Assignor has agreed to sell, convey, assign, transfer, and deliver to Assignee, and Assignee has agreed to purchase, acquire, and accept from Assignee, the Contributed Assets, including without limitation the exclusive rights, title and interest in and to all Intellectual Property of Assignor; and

WHEREAS, in furtherance of the transactions contemplated by the Contribution Agreement, Assignor desires to irrevocably grant, transfer, and assign to Assignee, and Assignee desires to accept the grant, transfer, and assignment of, all rights, title and interest in and to all Intellectual Property of Assignor, including without limitation the Intellectual Property listed on Schedule A attached hereto and incorporated herein by this reference, and all goodwill associated therewith (collectively, the "Transferred IP Rights").

NOW, THEREFORE, for and in consideration of the premises and mutual covenants contained herein, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

1. Assignment: Assignor hereby irrevocably sells, conveys, assigns, transfers, and delivers to Assignee, its successors and assigns, and Assignee hereby purchases, acquires, and accepts the grant, transfer, and assignment of, all of Assignor's worldwide right, title, benefit, entitlement and interest in, to, and under the Transferred IP Rights, together with all goodwill of the business associated with the use of and symbolized by the Transferred IP Rights comprising trademarks, including but not limited to all copies and tangible embodiments of the Transferred IP Rights (in whatever form or medium), all rights in or licenses to or from a third person in any of the Transferred IP Rights, and the right to prosecute and receive damages for any and all past, present, and future claims or causes of action arising out of or related to any infringements, dilutions, misappropriations or other violations of any of the Transferred IP Rights whatsoever, the same to be held and enjoyed by said Assignee, its successors, legal representatives, and assigns from and after the date hereof forever as fully and entirely as the same would have been held and enjoyed by said Assignor had this Assignment not been made.

2. Further Assurances: Assignor hereby agrees to execute or procure any further necessary assurance of its title to the Transferred IP Rights and, upon the reasonable request of said Assignee, shall execute and deliver (i) any and all documents and papers whatsoever that may be necessary or desirable to perfect Assignee's rights to the Transferred IP Rights in Assignee or its successors, assigns or other legal representatives, and (ii) any additional applications for registration, or any part or parts thereof. Assignor further agrees to make all rightful oaths and do all lawful acts requisite for procuring the same or for aiding therein, without further compensation but at the expense of Assignee or Assignee's successors, assigns, or other legal representatives.

3. Government Authorization: Assignor hereby authorizes all appropriate governments to record this Assignment and to issue or transfer all said Transferred IP Rights to the Assignee as the legal

and beneficial owner of all right, title, benefit, entitlement and interest therein, or otherwise as the Assignee may direct, in accordance with the terms of this Assignment.

4. Governing Law: Except to the extent that federal law preempts state law with respect to the matters covered hereby, this Assignment shall be governed by, construed in accordance with, and enforced under the laws of the State of Delaware applicable to agreements executed and to be performed solely within such State.

5. Notice: Section 9.1 of the Contribution Agreement is herein incorporated by reference.

7. Counterparts: This Assignment may be executed in any number of counterparts, any of which may be transmitted by facsimile or via portable document format by other electronic means, each of which shall be deemed to be an original and all of which together shall be deemed to be one and the same instrument. However, this Assignment shall be ineffective for any purposes whatsoever unless or until executed by all Parties hereto.

8. Binding Effect. This Assignment shall be binding upon and inure to the benefit of the Parties hereto and their respective successors and assigns.
