WHEREAS, I:

am the co-Inventor and/or collaborator of the following:

1. **Proof of Treatment Closure and Methods of Use**, described in United States Provisional Application 14429430 filed on 03/19/2015; and

Whereas, Richard Dumm, an individual with a place of residence at 34824 CR 29 Greely, CO 80631 ("Assignee"), is desirous of acquiring the entire right, title and interest in and to said invention, said application and in, to and under any and all Letters Patents to be obtained therefore;

Now, therefore, for good and valuable consideration including \$5.00, I do hereby sell, assign and transfer unto said Assignee, its successors and assigns, my entire rights, titles and interests in and to said inventions, said applications, all divisions, continuations, continuations-in-part, reissues, or renewals thereof, and the Letters Patents, both foreign and domestic, that may or shall issue therefrom, including all reissues or extensions of such patents including all of my rights under the International Convention (collectively "the Patent Rights"), and I do hereby authorize and request the Commissioner of Patents to issue said Letters Patents to the above-mentioned Assignee in accordance herewith.

I further authorize said Assignee, its successors and assigns, or anyone it may properly designate, to apply for Letters Patents, in its own name if desired, in any and all foreign countries, and additionally to claim the filing date of said United States applications and/or otherwise take advantage of the provisions of the International Convention.

I represent and warrant that I have the right and authority to execute this Assignment and to convey all my right, title, and interest in the Patent Rights, and that I have not conveyed nor will convey hereafter all or part of the Patent Rights therein to a third party; and I do hereby covenant and agree with the said Assignee, its successors and assigns, that I will not execute in writing or do any act whatsoever conflicting with these presents, and that I or my executors or administrators will at any time upon request, without further or additional consideration, but at the expense of the said Assignee, its successors and assigns, execute such additional writings and do such additional acts as said Assignee, its successors and assigns, may deem necessary or desirable to perfect the Assignee's enjoyment of this grant, and render all necessary assistance in making applications for and obtaining original, continuation, continuation-in-part, divisional, reissued or extended Letters Patents of the United States, or of any and all foreign countries on said inventions, and in enforcing any rights occurring as a result of such applications or patents, by giving testimony in any proceedings or transactions involving such applications or patents.
