PATENT SECURITY AGREEMENT

This PATENT SECURITY AGREEMENT (this "Patent Security Agreement") is entered into as of April 25, 2016, among the Grantors listed on the signature pages hereof (collectively, jointly and severally, "Grantors" and each individually "Grantor"), and MONROE CAPITAL MANAGEMENT ADVISORS, LLC, as agent for the Lenders (as defined below) (in such capacity, together with its successors and assigns, the "Agent").

WITNESSETH:

WHEREAS, pursuant to that certain Loan and Security Agreement dated as of the date hereof (as amended, restated, amended and restated, supplemented or otherwise modified from time to time, the "Loan Agreement"), among Grantors, the other persons party thereto as Borrowers and Loan Parties, the lenders party thereto from time to time (the "Lenders") and the Agent, the Lenders have agreed to make the Term Loan to Grantor; and

WHEREAS, in order to induce the Agent and Lenders to enter into the Loan Agreement and other Loan Documents and to induce the Lenders to make the Term Loan as provided for in the Loan Agreement, each Grantor has agreed to execute and deliver to the Agent, this Patent Security Agreement.

NOW, THEREFORE, in consideration of the premises and mutual covenants herein contained and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, each Grantor hereby agrees as follows:

1. DEFINED TERMS. All capitalized terms used herein (including in the preamble and recitals hereto) but not otherwise defined herein have the meanings given to them in the Loan Agreement.

2. GRANT OF SECURITY INTEREST IN PATENT COLLATERAL. Each Grantor hereby grants to the Agent, for the benefit of the Secured Parties, a continuing security interest in all of such Grantor's right, title and interest in, to and under the following, whether presently existing or hereafter created or acquired (collectively, the "Patent Collateral"):

(a) all of its Patents to which it is a party including those referred to on Schedule I hereto;

(b) all reissues, divisions, continuations, continuations-in-part or extensions of the foregoing; and

(c) all products and proceeds of the foregoing, including, without limitation, any claim by such Grantor against third parties for past, present or future infringement of any Patent.

3. SECURITY FOR OBLIGATIONS. This Patent Security Agreement and the security interest created hereby secures the payment and performance of all the Obligations, whether now existing or arising hereafter. Without limiting the generality of the foregoing, this Patent Security Agreement secures the payment of all amounts which constitute part of the Obligations and would be owed by Grantors to the Agent or the Lenders whether or not they are unenforceable or not allowable due to the existence of an Insolvency Proceeding involving any Grantor.

4. SECURITY AGREEMENT. The security interests granted pursuant to this Patent Security Agreement are granted in conjunction with the security interests granted to the Agent pursuant to the Guaranty and Collateral Agreement. Each Grantor hereby acknowledges and affirms that the rights

and remedies of the Agent and the Lenders with respect to the security interest in the Patent Collateral made and granted hereby are more fully set forth in the Guaranty and Collateral Agreement, the terms and provisions of which are incorporated by reference herein as if fully set forth herein.

5. AUTHORIZATION TO SUPPLEMENT. If any Grantor shall obtain rights to any new Patents or become entitled to the benefit of any Patent application or Patent for any reissue, division or continuation of any Patent, the provisions of this Patent Security Agreement shall automatically apply thereto. Without limiting Grantors' obligations under this Section 5, Grantor hereby authorizes the Agent unilaterally to modify this Patent Security Agreement by amending Schedule I hereto to include any such new Patent applications of Grantor. Notwithstanding the foregoing, no failure to so modify this Patent Security Agreement or amend Schedule I hereto shall in any way affect, invalidate or detract from the Agent's continuing security interest in all Collateral, whether or not listed on Schedule I hereto.

6. COUNTERPARTS. This Patent Security Agreement may be executed in any number of counterparts, each of which shall be deemed to be an original, but all such separate counterparts shall together constitute but one and the same instrument. In proving this Patent Security Agreement or any other Loan Document in any judicial proceedings, it shall not be necessary to produce or account for more than one such counterpart signed by the party against whom such enforcement is sought. Any signatures delivered by a party by facsimile transmission or other electronic transmission (including ".pdf" format) shall be deemed an original signature hereto.

7. GOVERNING LAW. This Patent Security Agreement shall be governed by the laws of the State of Illinois, without giving effect to any conflict of law principles, except federal laws relating to national banks.

[Signatures Immediately Follow]

IN WITNESS WHEREOF, each Grantor has caused this Patent Security Agreement to be executed and delivered by its duly authorized officer as of the date first set forth above.
