ASSIGNMENT

THESE PRESENTS WITNESS THAT **Maytag Corporation**, a corporation of Delaware having an office and place of business at 2000 North M-63, Benton Harbor, Michigan 49022 (hereinafter "Assignor") is the owner of certain existing and future worldwide rights, title and interests in and to a number of patents and patent applications, and copyrights related to manufacturing services (the "Properties"); and

Whirlpool Corporation, a Delaware corporation, having an office and place of business at 2000 North M-63, Benton Harbor, Michigan 49022, (hereinafter "Assignee") is desirous of obtaining the entire rights, title and interests in, to and under the aforesaid Properties;

A. NOW, THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged, the said Assignor has sold, assigned, transferred, and set over, and by these presents does hereby sell, assign, transfer, and set over, unto the said Assignee, all of the above Properties more fully described herein, for its own use and benefit, and for the use and benefit of its successors, legal representatives and assigns, effective as of December 22, 2010:

1. The entire rights, title, and interests in and to the patents and patent applications, as well as the inventions covered by such patents and patent applications as listed in Schedule I annexed hereto and made a part hereof.
2. The entire rights, title and interests in and to copyrights related to manufacturing activities, including without limitation, all common-law and registered rights therein as well as the right to create derivative works based on the copyrights related to manufacturing activities.

B. Regarding the patents and applications for patents listed in Schedule I, said Properties are to be held and enjoyed by said Assignee together with all divisions, renewals, continuations, and continuations-in-part thereof, and all patents of any country which may be granted thereon, and all reissues, reexaminations and extensions thereof; and all applications for industrial property protection, including, without limitation, all applications for patents, utility models, and designs which may hereafter be filed for the existing patents, applications, or inventions embodied therein, in any country, together with the right to file such applications and the right to claim for the same the priority rights derived from any previously filed applications under the patent laws of any country, the International Convention for the Protection of Industrial Property, or any international agreement or the domestic laws of the country in which any such application is filed, as may be applicable; and all forms of industrial property protection, including, without limitations, patents, utility models, inventors' certificates, and designs which may be granted for said patents or applications in any country and all extensions, renewals, reissues, divisions, continuations, continuations-in-part, and reexaminations

thereof, and together with and all claims for past, ongoing or future infringement, misappropriation, or violation thereof, including all income, royalties, damages and payments now or hereafter due or payable;

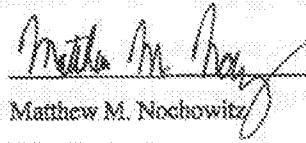

AND ASSIGNOR HEREBY authorizes and requests any official of any country or countries whose duty it is to issue patents or other evidence of forms of industrial property protection on applications as aforesaid, to issue the same to the said Assignee in accordance with the terms of this instrument.

AND ASSIGNOR HEREBY further covenants and agrees that they will generally do everything possible to aid the said Assignee, its successors, legal representatives, and assigns, to obtain said patents or other forms of protection in all countries.

(Remainder of this page intentionally left blank)

IN WITNESS WHEREOF, ASSIGNOR has caused these presents to be signed by its duly authorized Officer thereunto and its corporate seal to be hereto affixed and attached by its Secretary as of this 9th day of December, 2010.
