RECORDABLE CONFIRMATORY ASSIGNMENT

THIS CONFIRMATORY ASSIGNMENT ("Confirmatory Assignment") is made this 11th day of May, 2016 by Cook Research Incorporated (f/k/a Medical Engineering and Development Institute, Inc.), an Indiana corporation; (referred to as "Assignor").

WHEREAS Assignor entered into an Intellectual Property Assignment Agreement (the "Assignment Agreement"), dated January 1, 2011 between Assignor and Cook Medical Technologies LLC, an Indiana limited liability company ("Assignee"), pursuant to which Assignor previously assigned to Assignee all of Assignor's right, title, and interest in and to the U.S. patent application and all inventions described therein related to "STENT HAVING LESS INVASIVE ENDS" and being described in U.S. Provisional Patent Application No. 61/016,731, filed on December 26, 2007, and any and all applications claiming the benefit thereof including the right of priority, and described in U.S. Nonprovisional Application No. 12/338,020, filed on December 18, 2008.

WHEREAS, pursuant to Section 3.1 of the Assignment Agreement, Assignor agreed to execute this Assignment to confirm the assignment on January 1, 2011, for the purpose of recording Assignee's rights with the Patent and Trademark Office.

WHEREAS, to the extent that any of Assignor's right, title, and interest in the Applications was not transferred pursuant to the Assignment Agreement, Assignor desires to assign to Assignee all of Assignor's right, title, and interest in, to, or under the Applications, including all inventions described therein, and Assignee desires to accept such an assignment.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor hereby assigns, transfers, contributes, and sets over, and does hereby confirm the previous contribution, assignment, and transfer, unto the said Assignee, its successors, legal representatives and assigns, all of Assignor's right, title and interest in, to and under the Applications including all inventions described therein and all divisions, renewals and continuations thereof, and all Letters Patent of the United States which may be granted thereon and all reissues, re-examinations and extensions thereof (including, without limitation, all proceeds thereof and the rights to sue for past, present and future infringements), and all applications for Letters Patent which may hereafter be filed for said Applications (including the right to claim priority from said Applications, including all inventions described therein) in any country or countries foreign to the United States, and all Letters Patent which may be granted for said Applications in any country or countries foreign to the United States hereby authorized.
