CONFIRMATORY ASSIGNMENT

THIS CONFIRMATORY ASSIGNMENT, dated April 28, 2016, is made by and between Thomas D. Splinter, 1013 Augusta Drive, Sun City Center, Florida 33573 and Stephen Patrick Giersch, 2315 Fairfax Road, St. Charles, Illinois 60174 (hereinafter the "Assignors"), and Right/Pointe Company, a corporation organized under the laws of the state of Illinois (hereinafter "Assignee").

WHEREAS, Assignors are the named inventors of U.S. Patent Application No. 13/954,291 filed on July 30, 2013, which published as US 2014/0033650 on February 6, 2014, and which is currently pending at the United States Patent & Trademark Office (hereinafter referred to as the "Patent Application");

WHEREAS, by virtue of an instrument entitled "Patent Assignment" hereinafter referred to as the "Patent Assignment") executed on August 14, 2013 by Thomas D. Splinter and on August 23, 2013 by Stephen Patrick Giersch (hereinafter the "Execution Dates"), Assignors assigned the Patent Application to Assignee;

WHEREAS, the Patent Assignment contained a typographical error in naming the Assignee as "Right Pointe Company" when the Assignee under the Patent Assignment was intended by the parties to be "Right/Pointe Company", which was in existence and in good standing at the time of the execution of the Patent Assignment; and

WHEREAS, the parties hereto wish to confirm, for the purpose of recording the transfer at the United States Patent & Trademark Office and for proving ownership to other authorities or entities as may be desired, that the Assignors' rights in and to the Patent Application and the invention(s) disclosed therein were transferred to the Assignee.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, it is hereby agreed and confirmed that:

1. Assignors hereby confirm that the intent of the Patent Assignment was to assign and transfer, and they have assigned and transferred, to the Assignee the entire right, title and interest in and to the Patent Application and the invention(s) disclosed therein as of the Execution Dates.

2. To the extent that any court or administrative agency having jurisdiction over this matter determines or adjudicates that the above confirmation is inadequate to bestow ownership of the Patent Application in Assignee as of the Execution Dates, the Assignors do hereby transfer and assign to Assignee, *nunc pro tunc* effective as of the Execution Dates, all right, title and interest in, to and under the Patent Application and the invention(s) disclosed therein, and all patent applications claiming priority thereto and all patents issuing therefrom.

3. This Confirmatory Assignment incorporates herein all other terms and conditions of the Patent Assignment, and nothing herein changes or alters such other terms and conditions of the Patent Assignment.
