Whereas, we, **Michael D. Cable of Danville, CA, Heinrich Sussner of Palo Alto, CA and Steven Yamamoto of San Diego, CA**, hereinafter referred to as Inventors, have invented certain new and useful improvements in the following invention(s):

Inventors will, at any time upon request, without additional consideration but at the expense of Assignee, execute such additional writings and do such additional acts as may be reasonably necessary for Assignee to perfect its enjoyment of this grant, and render all assistance in making application for and obtaining, maintaining, and enforcing all Patents or similar legal protection on the invention(s) in any and all countries.

We further authorize and direct Assignee's attorney(s) or agent(s) to insert the serial number and filing date of any application now identified by attorney docket number and title set forth above as soon as the same shall have been made known to them by the United States Patent and Trademark Office.
