ASSIGNMENT

Whereas, the University of Utah, an institution of higher education of the State of Utah, having a place of business at 615 Arapeen Drive, Suite 310, Salt Lake City, UT 84108, is the owner of the entire right, title and interest in and to a United States provisional patent application filed in the United States Patent and Trademark Office in the names of Rajesh Surapaneni and Carlos H. Mastrangelo entitled **HIGH-RESOLUTION FLEXIBLE TACTILE IMAGER SYSTEM BASED ON FLOATING COMB ELECTRODE**, (hereafter the "invention"), filed on April 4, 2014 and assigned Serial No. 14/245,709.

foreign to the United States and in and to any United States or foreign Letters Patent that may be granted therefore and in and to the said application and in and to any and all non-provisional, divisions, reissues, continuations and extensions thereof and in and to any Letters Patent that may be granted thereon, all said rights to be held and enjoyed by the University of Utah Research Foundation for its own use and enjoyment and for the use and enjoyment of its successors and assigns to the full end of the term or terms for which said Letters Patent may be granted as fully and entirely as the same would have been held and enjoyed by the University of Utah if this assignment, transfer and sale had not been made.

The University of Utah hereby authorizes and requests the United States Commissioner of Patents and Trademarks and all authorized officials of foreign patent offices to issue the said Letters Patent, when granted, to The University of Utah Research Foundation as the assignee of its entire right, title and interest in and to the same, for the use and enjoyment of The University of Utah Research Foundation, its successors and assigns.
