DECLARATION AND ASSIGNMENT

I, the undersigned, hereby agree and acknowledge that:

1. I am an inventor of the inventions ("Invention") set forth in the Patent Applications listed in the attached Schedule ("the Application(s)"), which I have read and understand.

2. I was an employee of **DuPont Nutrition Biosciences ApS**, a corporation of **Denmark**, having an address of **Langebrogade 1, DK-1411, Copenhagen K, Denmark** ("DUPONT") at the time of the making of the Invention.

3. The Invention was made in the course of my normal duties whilst I was employed by DUPONT and the circumstances were such that an invention was reasonably expected to result from the carrying out of my duties and/or I had a special obligation to further the interests of DUPONT because of the nature of my duties and of the particular responsibilities arising from the nature of my duties.

4. The Invention and all intellectual property rights arising therefrom, including without limitation:

(i) the Application(s) and any patents granted thereon and all reissues, re-examinations, extensions and Supplementary Protection Certificates of said patents,

(ii) the right to apply for, prosecute and obtain one or more patents anywhere in the world with respect in whole or in part to the Invention and all patents granted thereon,

(iii) the right to claim priority from and all priority rights predicated upon the Invention, the Application(s) or any patent application disclosing in whole or in part the Invention, under the Paris Convention for the Protection of Industrial Property, the Patent Cooperation Treaty, the European Patent Convention, and all other treaties of like purposes,

(iv) any and all other patent applications on said Invention anywhere in the world, including all divisional, renewal, substitute, continuation, continuation-in-part, patent-of-addition, Paris Convention, European Patent Convention and Patent Cooperation Treaty applications based in whole or in part upon said Invention or upon said Application(s) or upon said right to claim priority, and any and all patents granted on or from the foregoing, and all reissues, re-examinations, extensions and Supplementary Protection Certificates of said patents,

(v) the right to prevent others from infringing any intellectual property rights anywhere in the world, including the right to recover and retain damages in respect of infringements occurring before as well as after the date of this Assignment, and

(vi) the right to exploit the Invention, the Application(s), and all intellectual property rights arising from the Invention or the Application(s),

belongs solely to DUPONT, and by way of confirmation, and in consideration of the payment of good and valuable consideration including consideration of at least one US dollar (\$1) paid in local currency included in my salary or as otherwise prescribed by national law and other good and valuable consideration, I hereby assign absolutely, with full title guarantee, all my right, title and interest in, to and under the Invention, the Application(s), and all intellectual property rights arising there from to DUPONT.

5. I, and my heirs and legal representatives, will give all reasonable assistance to DUPONT and its legal representatives in any matter relating to the Invention, including without limitation any matter within items (i) to (vi) of paragraph 4, above such as, without limitation,

- (i) obtaining and defending intellectual property rights relating to the Invention,
- (ii) executing any and all lawful documents in this respect including without limitation petitions, specifications, oaths, further assignments, disclaimers, declarations, and affidavits as may be requested by DUPONT or its legal representatives, and
- (iii) giving or communicating to DUPONT and its legal representatives any and all facts or other information in my possession relating to the Invention or the history of its conception, reduction to practice or any disclosure thereof, to assure that the Invention, the Application(s), and all intellectual property rights arising from the Invention or the Application(s) shall be held and enjoyed by DUPONT as fully and entirely as the same could have been held and enjoyed by me or my heirs or representatives if the Invention had not been made as discussed in paragraphs 2 and 3, above, and/or this document had not been made.

6. All materials, including without limitation all documents, photographs, models, samples and other physical exhibits or specimens, relating to the Invention belong to DUPONT.

7. This Assignment is governed by the law of **Denmark**.
