ASSIGNMENT OF RIGHTS: PATENT APPLICATION

James D. Logan is an inventor of **Sonic Lumber Tester**, as described in the U.S. Patent Application signed by Assignor on date below, U.S. Patent and Trademark office Serial Number: 14/066,504, filed 10/29/2013, (the "Patent Application"). **Metriguard Inc.**, ("Assignee") desires to acquire all rights in and to the Patent Application and the patent (and any reissues or extensions) that may be granted.

Therefore, for valuable consideration, the receipt of which is acknowledged, Assignor assigns to Assignee 100% of his right, title, and interest in the invention and Patent Application (as well as such rights in any divisions, continuations in whole or part or substitute applications) to Assignee for the entire term of the issued Patent and any reissues or extensions that may be granted and for the entire terms of any and all foreign patents that may issue from foreign applications (as well as divisions, continuations in whole or part or substitute applications) filed claiming the benefit of the Patent Application.

Assignor authorizes the United States Patent and Trademark Office to issue any Patents resulting from the Patent Application to Assignee according to the percentage interest indicated in this assignment. The right, title and interest is to be held and enjoyed by Assignee and Assignee's successors and assigns as fully and exclusively as it would have been held and enjoyed by Assignor had this assignment not been made.

Assignor further agrees to: (a) cooperate with Assignee in the prosecution of the Application and foreign counterparts; (b) execute, verify, acknowledge and deliver all such further papers, including patent applications and instruments of transfer; and (c) perform such other acts as Assignee lawfully may request to obtain or maintain the Patent for the invention in any and all countries.

Date: 29 APR 2015

Assignor

[to be completed by notary public]

On this 29th day of April, before me, Shanna Larson, the undersigned Notary Public, personally appeared James Logan ASSIGNOR, personally known to me (or proved to me on the basis of satisfactory evidence) to be the person whose name is subscribed to the within instrument, and acknowledged to me that he executed the same. WITNESS my hand and official seal in Whitman County of Washington on the date set forth in this certificate.

Notary Public

ASSIGNMENT OF RIGHTS: PATENT APPLICATION

James R. Allen is an inventor of **Sonic Lumber Tester**, as described in the U.S. Patent Application signed by Assignor on date below, U.S. Patent and Trademark office Serial Number: 14/066,504, filed 10/29/2013, (the "Patent Application"). **Metriguard Inc.**, ("Assignee") desires to acquire all rights in and to the Patent Application and the patent (and any reissues or extensions) that may be granted.

Therefore, for valuable consideration, the receipt of which is acknowledged, Assignor assigns to Assignee 100% of his right, title, and interest in the invention and Patent Application (as well as such rights in any divisions, continuations in whole or part or substitute applications) to Assignee for the entire term of the issued Patent and any reissues or extensions that may be granted and for the entire terms of any and all foreign patents that may issue from foreign applications (as well as divisions, continuations in whole or part or substitute applications) filed claiming the benefit of the Patent Application.

Assignor authorizes the United States Patent and Trademark Office to issue any Patents resulting from the Patent Application to Assignee according to the percentage interest indicated in this assignment. The right, title and interest is to be held and enjoyed by Assignee and Assignee's successors and assigns as fully and exclusively as it would have been held and enjoyed by Assignor had this assignment not been made.

Assignor further agrees to: (a) cooperate with Assignee in the prosecution of the Application and foreign counterparts; (b) execute, verify, acknowledge and deliver all such further papers, including patent applications and instruments of transfer; and (c) perform such other acts as Assignee lawfully may request to obtain or maintain the Patent for the invention in any and all countries.

Date: 5-11-2015

Assignor

[to be completed by notary public]

On this 11th day of May, before me, Dawn M Gludt, the undersigned Notary Public, personally appeared James Allen ASSIGNOR, personally known to me (or proved to me on the basis of satisfactory evidence) to be the person whose name is subscribed to the within instrument, and acknowledged to me that he executed the same. WITNESS my hand and official seal in Whitman County of Washington on the date set forth in this certificate.

ASSIGNMENT OF RIGHTS: PATENT APPLICATION

Harry E. Moore is an inventor of **Sonic Lumber Tester**, as described in the U.S. Patent Application signed by Assignor on date below, U.S. Patent and Trademark office Serial Number: 14/066,504, filed 10/29/2013, (the "Patent Application"). **Metriguard Inc.**, ("Assignee") desires to acquire all rights in and to the Patent Application and the patent (and any reissues or extensions) that may be granted.

Therefore, for valuable consideration, the receipt of which is acknowledged, Assignor assigns to Assignee 100% of his right, title, and interest in the invention and Patent Application (as well as such rights in any divisions, continuations in whole or part or substitute applications) to Assignee for the entire term of the issued Patent and any reissues or extensions that may be granted and for the entire terms of any and all foreign patents that may issue from foreign applications (as well as divisions, continuations in whole or part or substitute applications) filed claiming the benefit of the Patent Application.

Assignor authorizes the United States Patent and Trademark Office to issue any Patents resulting from the Patent Application to Assignee according to the percentage interest indicated in this assignment. The right, title and interest is to be held and enjoyed by Assignee and Assignee's successors and assigns as fully and exclusively as it would have been held and enjoyed by Assignor had this assignment not been made.

Assignor further agrees to: (a) cooperate with Assignee in the prosecution of the Application and foreign counterparts; (b) execute, verify, acknowledge and deliver all such further papers, including patent applications and instruments of transfer; and (c) perform such other acts as Assignee lawfully may request to obtain or maintain the Patent for the invention in any and all countries.

Date: 5 May 2015

Harry Moore

Assignor

[to be completed by notary public]

On this 5 day of May, 2015, before me, Michelle L Stapleton, the undersigned Notary Public, personally appeared Harry Moore ASSIGNOR, personally known to me (or proved to me on the basis of satisfactory evidence) to be the person whose name is subscribed to the within instrument, and acknowledged to me that he executed the same. WITNESS my hand and official seal in Latah County of Idaho on the date set forth in this certificate.

Michelle L Stapleton

Notary Public

ASSIGNMENT OF RIGHTS: PATENT APPLICATION

Dean A. Nelson is an inventor of **Sonic Lumber Tester**, as described in the U.S. Patent Application signed by Assignor on date below, U.S. Patent and Trademark office Serial Number: 14/066,504, filed 10/29/2013, (the "Patent Application"). **Metriguard Inc.**, ("Assignee") desires to acquire all rights in and to the Patent Application and the patent (and any reissues or extensions) that may be granted.

Therefore, for valuable consideration, the receipt of which is acknowledged, Assignor assigns to Assignee 100% of his right, title, and interest in the invention and Patent Application (as well as such rights in any divisions, continuations in whole or part or substitute applications) to Assignee for the entire term of the issued Patent and any reissues or extensions that may be granted and for the entire terms of any and all foreign patents that may issue from foreign applications (as well as divisions, continuations in whole or part or substitute applications) filed claiming the benefit of the Patent Application.

Assignor authorizes the United States Patent and Trademark Office to issue any Patents resulting from the Patent Application to Assignee according to the percentage interest indicated in this assignment. The right, title and interest is to be held and enjoyed by Assignee and Assignee's successors and assigns as fully and exclusively as it would have been held and enjoyed by Assignor had this assignment not been made.

Assignor further agrees to: (a) cooperate with Assignee in the prosecution of the Application and foreign counterparts; (b) execute, verify, acknowledge and deliver all such further papers, including patent applications and instruments of transfer; and (c) perform such other acts as Assignee lawfully may request to obtain or maintain the Patent for the invention in any and all countries.

Date: 6-7-2016

Assignor

[to be completed by notary public]

On this 7th day of June 2016 before me, Mary Jo Chandler, the undersigned Notary Public, personally appeared Dean Nelson ASSIGNOR, personally known to me (or proved to me on the basis of satisfactory evidence) to be the person whose name is subscribed to the within instrument, and acknowledged to me that he executed the same. WITNESS my hand and official seal in Whitman County of Washington State on the date set forth in this certificate.
