NOW, THEREFORE, for and in consideration of the sum of One Dollar (\$1.00) and other good and valuable consideration, the receipt and sufficiency of all such consideration being hereby acknowledged, each Assignor hereby assigns to Assignee, and confirms any prior assignments or obligations to assign to Assignee, and its successors in interest, his or her full and exclusive right, title and interest in and to the Invention and Application. The foregoing assignment and confirmation of assignment effects or confirms the assignment of all right, title and interest in and to the Invention and Application in the United States of America and throughout the world, including the right to claim priority under the laws of the United States of America, of the Paris Convention and of any foreign countries to the Invention, any improvements to the Invention and to the Application, together with any continuations, continuations-in-part or divisionals thereof, and any patents issuing thereon and all reissues, reexaminations or extensions thereof, and all foreign applications and patents claiming priority thereto, including the right to sue for and to recover for past infringements of or liabilities for any of the rights relating to any of the applications or patents resulting there from, as fully

Each **Assignor** further covenants and agrees that he or she will at any time upon request make, execute and deliver without further compensation, any and all other instruments in writing, including further applications, papers, affidavits, powers of attorney, assignments, and other documents, and do all lawful acts and things, which, in the opinion of **Assignee**, its counsel, successors or assigns, may in any country be required or necessary to more effectively secure to and vest in the **Assignee**, its successors or assigns the Patent Rights hereby assigned, transferred and conveyed, and that he or she will sign any applications for reissue, division, continuation, continuation-in-part, renewal, substitute or extension of Letters Patent for the Application, Invention or improvements thereon.

Each **Assignor** agrees to execute all papers and documents and to perform any act that may be necessary in connection with claims or provisions of the International Convention for the Protection of Industrial Property or similar agreements.

Each **Assignor** further covenants and agrees that he or she will at any time upon request, communicate to the **Assignee**, its successors, assigns or legal representatives any facts relating to the Application or Invention known to them, and will testify as to the same in any interference, litigation, mediation, arbitration or other proceeding when requested to do so.
