## ASSIGNMENT OF PATENTS

This ASSIGNMENT OF PATENTS (this "Assignment") is entered into on this 1st day of April, 2015 (the "Effective Date"), between Carlisle Fluid Technologies, Inc., a Delaware corporation (the "Assignee"), Finishing Brands Holdings Inc., a Minnesota company ("Assignor"). This Assignment being entered into on the Effective Date pursuant to the transactions contemplated by that certain Asset Purchase Agreement made and entered into as of October 7, 2014, by and among Graco Inc., a Minnesota corporation, Finishing Brands Holdings, Inc., a Minnesota corporation, Carlisle Companies Incorporated, a Delaware corporation, and Carlisle Fluid Technologies, Inc., a Delaware corporation (as amended, the "Purchase Agreement"). Capitalized terms not defined herein will have the meaning set forth in the Purchase Agreement.

## RECITALS

WHEREAS, Assignor is the owner of the entire right, title and interest in and to the patents, patent applications and industrial design registrations set forth in Appendix A and in the inventions claimed therein (collectively, the "Patents"), and Assignee wants to acquire the entire right, title and interest in and to the aforesaid Patents and the inventions claimed therein.

## AGREEMENT

THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged, Assignor does hereby assign, transfer and convey to Assignee its entire right, title and interest in and to said Patents, all corresponding patents, patent applications, in all countries, all reissues, divisions, and extensions thereof and to any Letters Patents which have or may issue based thereon and all benefits, privileges, causes of action, claims and remedies arising out of or relating to the Patents, the exploitation thereof, and the use and ownership of any of the Patents, including but not limited to the right to sue for past damages.

This Assignment shall be construed, interpreted and applied in accordance with the laws of the State of Delaware.

This Assignment may be amended or modified only by a written instrument signed by each Party.

This Assignment may be executed in one or more counterparts, all of which shall be considered one and the same agreement, and subject to the Closing under the Purchase Agreement and shall become effective when one or more such counterparts have been signed by each of the Parties and delivered to the other Party.
