ASSIGNMENT and CONFIRMATION

We, Matthias Peter and Jan Thalheim ("ASSIGNORS") hereby confirm the sale, assignment, and transfer to Power Integrations Switzerland GmbH having a place of business at Johann-Renfer-Strasse 15, 2504 Biel-Bienne, Switzerland, and its successors and assigns (collectively, "ASSIGNEE") of all of our rights, title and interest throughout the world in and to any and all inventions and improvements that are the subject of and described in the following patent document:

U.S. Patent Application No. 15/179,871, entitled "COMMUNICATING ACROSS GALVANIC ISOLATION, FOR EXAMPLE, IN A POWER CONVERTER" filed on June 10, 2016.

We authorize and request the attorneys of record or the attorney filing the application to insert into this assignment the filing date and serial number of the application when known.

The foregoing sale, assignment, and transfer occurred by operation of an employment agreement between us and our employer in Switzerland and under Swiss inventorship law. Should we have any remaining interest, we hereby sell, assign, and transfer any rights, title or interest we may have in said inventions and improvements anywhere in the world to ASSIGNEE.

This assignment and confirmation includes the foregoing patent application and/or patent; all legal equivalents thereof in any country and all patents issuing therefrom; all patents, utility models, and design registrations granted for any of said inventions and improvements throughout the world; and the right to claim priority based on the filing date of the foregoing patent application or patent under the International Convention for the Protection of Industrial Property, the Patent Cooperation Treaty, the European Patent Convention, and all other treaties of like purposes. We authorize ASSIGNEE to apply in all countries in our names or in the name of ASSIGNEE for patents, utility models, and design registrations and like rights of exclusion and for inventors' certificates for the assigned inventions and improvements.

The foregoing assignments have been made for good and valuable consideration, the receipt of which is hereby acknowledged, and in accordance with the employment agreements existing at the time said inventions and improvements were made.

We hereby represent and covenant that no assignment, sale, agreement or encumbrance has been or will be made or entered into that would conflict with the assignment of said inventions and improvements to ASSIGNEE.

We further covenant for ourselves and our respective heirs, legal representatives and assigns to provide to ASSIGNEE promptly upon the request of ASSIGNEE all pertinent facts and documents relating to said invention and improvements and said patents and legal equivalents as may be known and accessible to us and to testify as to the same in any interference, litigation, or proceeding relating thereto and promptly to execute and deliver to ASSIGNEE or its legal representative any and all papers, instruments or affidavits required to apply for, obtain, maintain, issue or enforce said application, said inventions and improvements and said patents and said equivalents thereof which may be necessary or desirable to carry out the purposes thereof.
