PATENT ASSIGNMENT

THIS ASSIGNMENT is effective as of July 29, 2015 (the "Effective Date") by and between Technology Innovations, LLC, a New York State limited liability company ("Assignee"), and Semantic Concepts, Inc., a corporation existing under the laws of Florida ("Assignor").

WHEREAS in this Assignment, "Patents" means:

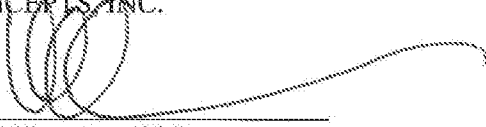

- (a) US patent number 6,829,613 titled "Techniques for Controlling Distribution of Information from a Secure Domain";
- (b) all patents and patent applications owned by Assignor or any affiliate of Assignor to, from or through which US patent number 6,829,613 claims priority;
- (c) all patents and patent applications owned by Assignor or any affiliate of Assignor that claim priority to, from or through any existing or abandoned patents or patent applications to, from or through which any patent or patent application described in Paragraphs (a) and (b) above; and
- (d) all patents and patent applications owned by Assignor or any affiliate of Assignor deriving from or having substantially the same specifications as any patent or patent application owned by Assignor or any affiliate of Assignor that claim priority to, from or through any existing or abandoned patents or patent applications to, from or through which any patent or patent application described in Paragraphs (a), (b) and/or (c) above, and any inventions disclosed in any such patent or patent application including all patents and patent applications owned by Assignor or any affiliate of Assignor claiming priority to, from or through, any such patent or patent application; in each such case including all:
 - (i) patents, patent applications, provisional applications, continuation applications, continuation-in-part applications, divisional applications, reissue patents, reexamination patents, design patents, design patent applications and patent extensions thereof owned by Assignor or any affiliate of Assignor relating to or having the substantially the same specifications as any patent or patent application described in Paragraphs (a), (b) and/or (c) above, any applications owned by Assignor or any affiliate of Assignor claiming priority to, from or through, any of the foregoing and all counterparts thereof; and
 - (ii) foreign patents, foreign patent applications, foreign counterparts including utility models and the like owned by Assignor or any affiliate of Assignor claiming priority to, from or through, or having the substantially the same specifications as any of the foregoing;

AND WHEREAS Assignor owns all interest, right, title, property and benefit in and to each of the Patents and has agreed to assign all interest, right, title, property and benefit in and to each of the Patents to Assignee;

NOW, THEREFORE, in consideration of good and valuable consideration, the receipt and sufficiency of which are hereby expressly acknowledged, Assignor hereby sells, assigns, transfers, conveys and sets over to Assignee (1) all of Assignor's interest, right, title, property and benefit in and to each of the Patents, (2) the sole right to collect any damages for past, current and future infringement of each of the Patents to the extent not covered by license agreements or forbearances existing as of the date hereof that have been expressly disclosed to Assignee prior to the date hereof and (3) the right to sue for past, current and future infringement of each of the Patents.

IN WITNESS WHEREOF, Assignor has caused this Assignment to be executed effective as of the date first written above by its duly authorized officer.
