ASSIGNMENT

This Assignment is between CDRD Ventures Inc. ("CVI"), a company incorporated under the British Columbia Business Corporations Act, having its principal place of business at 2405 Wesbrook Mall, Fourth Floor, Vancouver, British Columbia, V6T 1Z3, Canada ("Assignor") and Zymeworks Inc. ("Zymeworks"), a company organized and existing under the laws of Canada, and extraprovincially in British Columbia, having its principal place of business at 540-1385 West 8th Avenue, Vancouver, British Columbia, V6H 3V9, Canada ("Assignee").

CVI, the Assignor, has obtained the rights to certain inventions (the "Invention(s)") described in the patent applications set forth on Exhibit A attached hereto (the "Application(s)").

Zymeworks, the Assignee, desires to acquire the entire right, title and interest in and to the Invention(s), the Application(s), and any Patents that may be granted for the Invention(s) in the United States or in any foreign countries (collectively, "Patents").

NOW, THEREFORE, for valuable consideration, the receipt and sufficiency of which Assignors acknowledge, and to the extent that the Assignor has not done so already via a prior agreement with the Assignee, or if the Assignor has already done so via a prior agreement with the Assignee then in confirmation of any obligation to do so in said prior agreement, the Assignor has sold, assigned, transferred, and set over, and by these presents does sell, assign, transfer and set over to Assignee, its successors, legal representatives and assigns, the entire right, title and interest in and to: the Invention(s), the Application(s), and any Patents; any divisions, continuations, and continuations-in-part of the Application(s) and any other applications claiming priority rights from these Application(s); any reissues, reexaminations, or extensions of any and all Patents; the right to file foreign applications directly in the name of Assignee; and the right to claim priority rights deriving from the Application(s) (collectively, the "Rights"). Assignor warrant that Assignee own the Rights, and that the Rights are unencumbered. Assignor also agree to not sign any writing or do any act conflicting with this assignment, and, without further compensation, sign all documents and do such additional acts as Assignee deems necessary or desirable to: perfect Assignee's enjoyment of the Rights; conduct proceedings regarding the Rights, including any litigation or interference proceedings; or perfect or defend title to the Rights. Assignors request the Commissioner of Patents to issue any Patent of the United States that may be issued on the Invention(s) to Assignee.
