RECORDABLE CONFIRMATION OF PATENT ASSIGNMENT

This RECORDABLE CONFIRMATION OF PATENT ASSIGNMENT (this "Patent Assignment") is made as of September 10, 2014 (the "Effective Date") by and between West Development Group, LLC, a limited liability company organized under the laws of Ohio ("Assignor") and Henry WDG, LLC, a limited liability company organized under the laws of Delaware ("Assignee").

WHEREAS, Assignor and Assignee have entered into that certain Asset Purchase Agreement, dated as of the date hereof (the "Purchase Agreement"), pursuant to which Assignee has acquired certain assets of Assignor and its Affiliates, including without limitation the Assigned Patents (defined below); and

WHEREAS, Assignor on behalf of itself and its Affiliates wish to confirm, memorialize and record the assignment of the Assigned Patents to Assignee as set forth in the Purchase Agreement.

NOW, THEREFORE, in consideration of the mutual representations, warranties and covenants set forth herein and in the Purchase Agreement, and for certain monetary consideration and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the undersigned parties agree as follows:

1. Assignor on behalf of itself and its Affiliates does hereby confirm that it has irrevocably sold, transferred, assigned and delivered, and hereby does sell, transfer, assign and deliver unto Assignee, and Assignee hereby assumes and accepts, all of Assignor's and its Affiliates' worldwide rights, title, and interest in and to the patents and patent applications listed on Annex A hereto, together with all registrations and applications for the foregoing; all provisional, parent, continuation, continuation-in-part, continued prosecution, and divisional applications of the foregoing; all patents of addition of the foregoing; all continued examination, extensions, re-examinations, post-grant confirmations, supplemental perfection certificates amendments or reissues of the foregoing; all patents or patent applications that claim priority to or from the foregoing; all inventions claimed by any of the foregoing, all rights to claim priority to the foregoing including without limitation the right to be granted a patent in Paris Convention countries; all rights to request, apply for, file and register the foregoing; all rights of action arising from the foregoing, including without limitation all claims for damages by reason of present, past and future infringement or violation of the foregoing and all present, past and future rights to sue and collect damages or seek injunctive relief for any such infringement; and all income, royalties and any other payments now and hereafter due and/or payable to Assignor and its Affiliates in respect of the foregoing, in each case, to be held and enjoyed by Assignee for its own use and benefit and for its successors and assigns as the same would have been held by Assignor and its Affiliates had this assignment not been made (collectively, the "Assigned Patents").

2. Assignor promptly shall, and shall cause its Affiliates, and their respective officers, directors and employees to, execute such documents, and do and perform such acts and things as Assignee may reasonably request to give effect to, document and record, perfect and enforce the assignment herein recited, including without limitation executing such other

documents as may be required to give full effect to and to perfect the rights of Assignee under this Patent Assignment in and to the Assigned Patents worldwide.

3. Assignor on behalf of itself and its Affiliates hereby authorizes and requests an official of the United States Patent and Trademark Office, and any official of any country foreign to the United States and of any intergovernmental organization, whose duty is to issue patent registrations or other evidence or forms of industrial property protection on applications as aforesaid, to issue the same to the Assignee, its successors, legal representatives and assigns, in accordance with the terms of this instrument.

4. This Patent Assignment shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns. This Patent Assignment and any claim, controversy, dispute or cause of action (whether in contract, tort or otherwise) based upon, arising out of or relating to this Patent Assignment shall be governed by and construed in accordance with the internal laws of the State of Delaware applicable to agreements made and to be performed entirely within the State of Delaware, without regard to the conflicts of laws principles thereof. This Patent Assignment may be executed in the original or by facsimile in any number of counterparts, each of which shall be deemed to be an original and all of which together shall constitute one and the same instrument.
