ASSIGNMENT OF PATENT RIGHTS

This patent assignment (this "Assignment") is entered into as of the date set forth below by and between (1) APPLE INC., a California corporation with a principal place of business at 1 Infinite Loop, Cupertino, California 95014, USA (the "Assignor") and (2) INTELLIGENT ENERGY LIMITED, a company incorporated in England and Wales under company number 03958217 and whose registered office address is at Charnwood Building Holywell Park, Ashby Road, Loughborough, Leicestershire, LE11 3GB, UK (the "Assignee").

For good and valuable consideration, the receipt of which is hereby acknowledged, the Assignor does hereby irrevocably sell, assign, transfer, and convey unto the Assignee all of the Assignor's right, title and interest in and to all of the following (collectively, the "Assigned Patent Rights"):

(a) all provisional patent applications, patent applications, and patents listed in the attached Appendix (the "Patents");

(b) to the extent owned or controlled by Assignor, all provisional patent applications, patent applications, patents or other similar governmental grants or issuances worldwide: (i) from which any of the Patents directly or indirectly claims priority; and/or (ii) for which any of the Patents directly or indirectly forms a basis for priority;

(c) to the extent owned or controlled by the Assignor, all re-issues, re-examinations, extensions, continuations, continuations in part, continuing prosecution applications, requests for continuing examinations, and divisions, worldwide, of any provisional patent application, patent application, patent or other governmental grant or issuance set forth in clauses (a) and/or (b) (clauses (a) through (c), collectively, the "Assigned Patents");

(d) any inventions, invention disclosures, discoveries and other items claimed or described in any Assigned Patent and all other rights arising out of such inventions, invention disclosures, discoveries and other items, worldwide, whether any patent applications have been held or any patents have issued on such inventions, invention disclosures, and/or discoveries and whether or not claims related to any of the foregoing have been rejected, withdrawn, cancelled, abandoned or the like (collectively, the "Assigned Inventions");

(e) all rights to apply, in any or all countries of the world, for patents, certificates of invention, utility models, industrial design protections, design patent protections, or other governmental grants or issuances of any type, or any other form of intellectual property right protection, with respect to any Assigned Invention, including, without limitation, the right to file for any patent applications under the Paris Convention for the Protection of Industrial Property, the International Patent Cooperation Treaty, or any other convention, treaty, agreement, or understanding;

(f) any causes of action (whether currently pending, filed or otherwise) and all other enforcement rights and rights to remedies under, on account of, or related to, any Assigned Patent Rights, including, without limitation, all causes of action and other enforcement rights for: (i) damages; (ii) injunctive relief; and (iii) other remedies of any kind for past, current and future infringement, misappropriation or violation of rights and all rights to sue for any of the foregoing;

(g) all rights to collect past and future royalties and other payments under, on account of, or related to any of the Assigned Patents and/or any of the foregoing clauses (a) through (f); and

(h) all other rights and interests worldwide, arising out of in connection with or in relation to any of the Assigned Patents or the Assigned Inventions.

The Assignor hereby authorizes the respective patent office or governmental agency in each jurisdiction to issue any and all patents, certificates of invention, utility models or other governmental grants or issuances that may be granted upon any of the Assigned Patent Rights in the name of the Assignee, as the assignee to the entire interest therein.

The terms and conditions of this Assignment will inure to the benefit of Assignee, its successors, assigns, and other legal representatives and will be binding upon Assignor, its successors, assigns, and other legal representatives.

In witness whereof, intending to be legally bound, the parties have executed this Assignment as of the Assignment Date.
