PATENT

ASSIGNMENT

WHEREAS, the undersigned (individually "ASSIGNOR" and collectively "ASSIGNORS"), are the named inventors of the patent application filed concurrently herewith, which is entitled "TRANSPARENT THIN FILM, PROCESS FOR MANUFACTURING A FILM AND SPATIAL PHASE MODULATOR," and which is a U.S. national phase application under 35 U.S.C. § 371 of International Application No. PCT/EP2013/075423 filed December 3, 2013 (the "Patent");

AND WHEREAS, **ESSILOR INTERNATIONAL (COMPAGNIE GENERALE D'OPTIQUE)**, having a place of business at 147 rue de Paris, F-94220 Charenton le Pont, France, and **NIKON CORPORATION**, having a place of business at Shinagawa Intercity Tower C, 2-15-3, Konan, Minato-ku, Tokyo 108-6290, Japan ("ASSIGNEES"), is desirous of acquiring all right, title and interest in and to the Patents;

FOR GOOD AND VALUABLE CONSIDERATION, the receipt, sufficiency and adequacy of which are hereby acknowledged, each ASSIGNOR does hereby:

IRREVOCABLY SELLS, ASSIGNS, AND TRANSFERS to the ASSIGNEES, ASSIGNORS' entire right, title, and interest in the Patents throughout the world, including all information disclosed therein, such right, title, and interest including but not limited to the right to sue for injunctions and/or damages for any past, ongoing, and/or future infringement. For the avoidance of doubt, this sale, assignment, and transfer extends to all ASSIGNORS' right, title, and interest in all patents and applications (throughout the world) of any kind that claim priority to or otherwise issue from any of the Patents, including any and all divisional, continuation, continuation-in-part, continuing, extension, foreign, international, national phase, non-provisional, provisional, reexamination, reissue, renewal or substitute patents and/or patent applications;

WARRANTS AND COVENANTS that ASSIGNORS have the authority to enter this ASSIGNMENT agreement, and that ASSIGNORS have done nothing and will not do anything to impair the rights conveyed to ASSIGNEES by this Agreement;

COVENANTS that, when requested and at the expense of the ASSIGNEES, ASSIGNORS will carry out in good faith the intent and purpose of this Agreement, including but not limited to executing any and all documents in connection with the Patents and any and all divisional, continuation, continuation-in-part, continuing, extension, foreign, international, national phase, non-provisional, provisional, reexamination, reissue, renewal or substitute patents, and/or patent applications claiming priority to, or based on any information disclosed in any of the Patents, including all rightful oaths, declarations, assignments, powers of attorney, and other papers; communicate to the ASSIGNEES all facts known to the ASSIGNORS relating to all information disclosed in the Patents and the history thereof; and generally do everything possible that the ASSIGNEES shall consider desirable for vesting title to the Patents and such patents and/or patent applications in the ASSIGNEES, and for securing, maintaining; and enforcing patent protection for the Patents and such patents and/or patent applications;

WAIVES any right it has to challenge the adequacy of the consideration; and

AGREES that this Agreement is binding on ASSIGNORS' heirs, assigns, representatives, and successors.

ASSIGNORS:
