COMBINED DECLARATION AND ASSIGNMENT FOR U.S. PATENT APPLICATION

Application Title: MEASURING SYSTEM AND MEASURING METHOD FOR MEASURING
DEVICES UNDER TEST WITH ANTENNA-ARRAYS

DECLARATION

As the below named inventor, I hereby declare that:

This declaration is directed to the following application for patent (the "Application):

- ☐ The attached application, or
☒ United States Application or PCT International Application No. 15/171,928, filed on
2016-06-02.

The Application was made or authorized to be made by me.

I believe that I am the original inventor or an original joint inventor of a claimed invention
in the application.

I acknowledge the duty to disclose all information known to me to be material to
patentability as defined in Title 37, U.S. Code of Federal Regulations, Section 1.56.

I hereby acknowledge that any willful false statement made in this declaration is
punishable under 18 U.S.C. 1001 by fine or imprisonment of not more than five (5) years,
or both.

ASSIGNMENT

In consideration of good and valuable consideration, the receipt of which is hereby
acknowledged, I (the undersigned) hereby:

sell, assign, and transfer to Rohde & Schwarz GmbH & Co. KG ("Assignee"), a corporation
of Germany, having a principal place of business at Muehldorfstr. 15, Munich, Germany,
81671, and its successors, assigns and legal representatives, the entire right, title, and
interest (for the United States and all foreign countries) in and to (i) the above-identified
application for the United States patent (the "Application"), including any and all
improvements that are disclosed in the Application, and (ii) all divisional, continuing,
substitute, renewal, reissue, and all other patent applications, which have been or are
subsequently filed in the United States and all foreign countries, based on or claiming
priority to the Application, or based on any of said improvements, and (iii) all original
and reissued patents that have been or are subsequently issued in the United States and

all foreign countries from the Application or based on any of said improvements, and (iv) all rights of priority resulting from the filing of the Application in the United States and all foreign countries; and

agree that the Assignee may apply for and receive a patent or patents based on the Application and for any of said improvements in its own name, and agree, when requested, without charge to, but at the expense of, the Assignee, or its successors, assigns and legal representatives, to carry out in good faith the intent and purpose of this Assignment: to execute all divisional, continuing, substitute, renewal, reissue, and all other patent applications based on or claiming priority to the Application, or based on any and all of said improvements; to execute all associated assignments and powers of attorney; to communicate to the Assignee, and its successors, assigns and legal representatives, all facts known to me relating to the Application and said improvements, and the history thereof; and to generally assist the Assignee, and its successors, assigns and legal representatives, in securing and maintaining proper patent protection for said improvements, and in vesting title to the Application, and all applications for patent and all patents based on said improvements, in the Assignee, and its successors, assigns and legal representatives; and

covenant with the Assignee, and its successors, assigns and legal representatives, that no assignment, grant, mortgage, license, or other agreement affecting the rights and property herein conveyed has been made to others by the me, and that full right to convey the same as herein expressed is possessed by the me.
