ASSIGNMENT
(Patent Application)

I, the undersigned, and a co-inventor, have invented certain inventions and improvements disclosed in a utility provisional patent application entitled "Replacement Door for Airplane Overhead Bin Expansion," which was filed with the U.S. Patent & Trademark Office on December 4, 2000 and assigned serial No. 60/251,308; which was subsequently filed as a utility non-provisional patent application entitled, "Replacement Door for Airplane Overhead Bin Expansion" with the U.S. Patent & Trademark Office on April 27, 2001 and assigned serial No. 09/844,859; and was subsequently filed as a utility patent application entitled, "Replacement Door for Airplane Overhead Bin Expansion" with the European Patent Office on June 26, 2001 and assigned serial No. 01610066.1.

I, the undersigned, have invented certain inventions and improvements disclosed in a utility non-provisional patent application entitled, "Throttle/ Propeller Mixer Cam," which was filed with the U.S. Patent & Trademark Office on June 22, 1988, assigned serial No. 07/209,841 and subsequently issued as U.S. Patent No. 4,909,709 on March 20, 1990.

For good and valuable consideration, the receipt and sufficiency of which I acknowledge, I:

1. Acknowledge and confirm that I have assigned, conveyed, sold, transferred and otherwise granted, and hereby irrevocably assign, convey, sell, transfer and otherwise grant, in perpetuity, throughout the universe, to Raisbeck Engineering, Inc., a corporation of the State of Washington having a principal place of business at 4411 South Ryan Way, Seattle, WA 98178 ("Assignee"), the entire right, title, and interest in and to:

- (a) all intellectual property (including, without limitation, any innovation, information, invention, discovery, product, process, work or design) disclosed, embodied, shown, or claimed in the above-referenced patent application, implicitly or explicitly, including all related know-how;
- (b) the above-referenced patent application, any application based in whole or in part upon the above-referenced patent application, including, without limitation, any application that is a provisional, non-provisional, design, divisional, continuation, continuation-in-part, reissue, reexamination, or non-U.S. patent application based in whole or in part on the above-referenced patent application, and the right to claim priority to the above-referenced patent application; and
- (c) any patent (including, without limitation, any U.S. and non-U.S. patents, registrations, utility models, industrial designs, design patents, continuations, continuations-in-part, divisionals, reissues and reexaminations) that is granted or issued upon, or that claims priority to,
