assignment, does sell, assign, and transfer unto Assignee, the full and exclusive right to said Intellectual Property including the Invention and said patent Application(s) as well as any and all patent applications for the Invention, including all non-provisional applications, divisional and continuation applications, substitutes and reissues of said application and the entire right, title, and interest in, to and under any and all Letters Patent of the United States and foreign countries that may issue or be granted on said Intellectual Property. Assignor hereby does sell, assign, and transfer any prior applications, including provisional applications, to which priority is claimed by the present application(s). Assignor hereby authorizes Assignee to file any such patent applications. Assignor hereby does sell, assign, and transfer unto Assignee the right to file foreign applications corresponding to the present application(s) and the right to claim priority to the necessary priority application.

Assignor hereby authorizes the Assignee to apply for and receive any and all United States and foreign patents relating to such improvements in its own name.

Assignor hereby authorizes and requests the issuing authority to issue any and all United States and foreign patents granted on such improvements to and in the name of the Assignee.

Assignor warrants and covenants that no assignment, grant, mortgage, license or other agreement or encumbrance affecting the rights and property herein conveyed has been or will be made or entered into by the undersigned, and that the full right to convey the same as herein expressed is possessed by the undersigned.
