INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT

This Intellectual Property Assignment Agreement (this "**Agreement**") is effective as of August 8, 2016 (the "**Effective Date**") by and between Joe Schroeder, Inc., an Illinois corporation with a principal place of business located at 5400 Janes Avenue, Downers Grove, Illinois 60515, on behalf of itself and its parent, affiliate, and subsidiary companies ("**JSI**"), and Aggreko, LLC, a Delaware limited liability company with a principal place of business located at 15600 John F. Kennedy Boulevard, Suite 600, Houston, TX 77032, on behalf of itself and its parent, affiliate, and subsidiary companies ("**Aggreko**").

Whereas, JSI owns a 50% ownership right to United States Patent No. 7,308,798 (the "798 Patent") on a "Dehumidification System," commercially produced and referred to as the XDH2000 unit; and

Whereas, JSI further may own rights to other equipment commercially known as the SBDH200 unit, a 12 kW Heater, and a dehumidification unit currently under development and referred to as the 600 CFM EXPLOSION PROOF DH-RXP-122, and technology related thereto (collectively the "Dehumidification Technology").

Therefore, in consideration of the mutual promises herein, and other good and valuable consideration, the parties agree as follows:

1. JSI hereby assigns to Aggreko any rights which JSI and its employees or other representatives may hold in and to the 798 Patent and all of their rights to sue for infringement of the 798 Patent, whether arising prior to or subsequent to the date of this Agreement; all royalties, fees, income payments and other proceeds now or hereafter payable with respect to the 798 Patent; and any and all renewals and extensions thereof that may hereafter be secured under the laws now or hereafter in effect in the United States and in any other jurisdiction, the same to be held and enjoyed by Aggreko, its successors and assigns from and after the date hereof as fully and entirely as the same would have been held and enjoyed by JSI had this Agreement not been made.

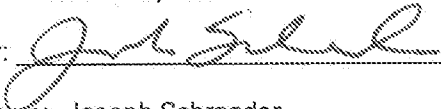

2. JSI hereby assigns to Aggreko any rights which JSI and its employees or other representatives may hold in and to the Dehumidification Technology, including but not limited to their rights to any inventions (whether patentable or not), any present or future patent applications worldwide, any patents which may issue on any of said patent applications worldwide, trade secrets, technical information and know-how, any copyrights, and any and all other intellectual property rights which it or they may own in connection with the Dehumidification Technology.

3. JSI agrees that it shall, through its representatives, cooperate with Aggreko, at Aggreko's expense, in all actions reasonably necessary to vest Aggreko with the rights granted herein, including but not limited to review of patent applications and the execution of declarations, further assignments, and other documents.
